Introductory Section

December 22, 2015

To the Honorable Mayor, Councilors and Citizens of the City of Newport, Rhode Island:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year (June 30) a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Newport, Rhode Island as of and for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the City of Newport, Rhode Island. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Newport, Rhode Island has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Newport, Rhode Island's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Newport, Rhode Island's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Newport, Rhode Island's financial statements have been audited by Blum, Shapiro & Company, P.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Newport, Rhode Island for the fiscal year ended June 30, 2015 were free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was reasonable basis for rendering an unmodified opinion that the City of Newport, Rhode Island's financial statements as of and for the fiscal year ended June 30, 20154, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Newport, Rhode Island was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Newport, Rhode Island's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Newport, Rhode Island's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Newport, Rhode Island (City), founded in 1639, incorporated in 1784 and re-chartered in 1853, is located at the southern end of Aquidneck Island in Narragansett Bay, about 30 miles southeast of Rhode Island's capital of Providence. The City is bounded by the Atlantic Ocean on the east and south and Narragansett Bay on the west. The City is 11 square miles in size, with 7.7 square miles of land and 3.3 square miles of inland water. The City has a year-round population of about 25,000, which grows substantially during the summer months. The City is also visited by over 4,000,000 people annually.

The City operates under a Home Rule Charter providing for a council/city manager form of government. There is a seven-member City Council serving two-year terms, headed by its Chairperson, who is elected by the at large City Councilors and also holds the title of Mayor. Four of the Councilors are elected at large and three from voting wards. All legislative powers of the City are vested in the City Council by the Charter, including the ordering of any tax, making appropriations, and transacting any other business pertaining to the financial affairs of the City. The City Council is also responsible for passing ordinances, adopting the budget, appointing committees and hiring the City Manager, City Solicitors, Municipal Judges and Canvassing Clerk. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing all other employees.

An elected seven-member School Committee, all at large and serving two-year terms, is vested with autonomous legislative authority over the public school system. The School Committee appoints the Superintendent of Schools as the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste and recyclables collection and disposal; street and sidewalk maintenance; beach, harbor, recreation, tourism and parking operations; and planning, zoning and economic development functions.

The annual budget serves as the foundation for the City's financial planning and control. All departments and the Newport Public Schools are required to submit requests for appropriations to the City Manager by May 14th of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager presents the proposed budget to the City Council for review no later than 45 days prior to June 30. The Council is required to hold 2 public hearings on the proposed budget and to adopt a final budget no later than June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function (e.g. public safety) and department. Department heads may make transfers of appropriations within a department with City Manager approval. Transfers of appropriations between departments, however, require the approval of the City Council. Budget-to-actual comparisons are provided in this report for the City's general operating fund and the school general operating fund.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy

From its early years when commerce involved the whale-oil trade, to today's highly sophisticated research in electronic submarine warfare, the seaport has continued to play a vital role in Newport's economy. The U.S. Navy, beginning with the founding of the Naval War College in 1884, influenced the development of the City and continues to do so as one of the major contributors to the local economy.

Newport's location, natural and cultural resources, and sense of history are responsible for the growth of tourism into a primary source of revenue. The third largest economic factor in Newport, the service sector, benefits from both the defense and tourism industries. As the State's principal tourist center and resort community, Newport is visited annually by millions of tourists who attend special events, sail and view the City's mansions and other attractions. The City's popularity has stimulated significant private investment in retail shopping facilities, hotels, timeshare units, restaurants, clubs and other tourist-oriented enterprises.

The personal income per capita in 2013 (latest available data) for Newport County is \$56,472 compared to \$46,989 and \$41,416 for Rhode Island and the United States, respectively. The unemployment rate is 4.6% compared to the state unemployment rate of 5.6%. The median selling price of an existing home in June 2015 is \$366,225 compared to \$376,500 in June 2014. The City continues to attract older retired residents and empty-nesters as well as tourists. Properties, especially those over \$1 million, continue to maintain value and have not declined to the extent that they have in other parts of the state and country due to the City's proximity to the Narragansett Bay and Atlantic Ocean. The tourist industry continues to grow. After an extremely successful North American stop in Newport in 2015, the organizers of the Volvo Ocean Race have selected Newport as the only North American stop during the next race in 2017. The economic impact of the Volvo race was determined to be \$41 million statewide with over 130,000 people attending the week-long docking and sail.

Long-term financial planning

The City was awarded a federal grant for the redevelopment and adaptive reuse of the former Sheffield public school to be used as the Newport TechWorks Accelerator and Innovation Center. Another major economic development initiative is the establishment of a North End Innovation Hub. In addition, the City continues to evaluate redevelopment options for excessed Navy property including the old naval hospital. A separate island-wide commission has been established to develop plans for the excessed property.

Long-term financial planning includes continuing significant capital renovation and additions in both the Water and Water Pollution Control (sewer) funds in response to new state and federal water quality standards and deteriorating buildings and systems. The replacement of the Lawton Valley Water Treatment Plant and significant long-term improvements to the Station 1 Water Plant in order to comply with new federal drinking water standards have been completed. The cost associated with this project was approximately \$85MM.

The City has developed a long-term master plan for Combined Sewer Overflow (CSO), and has undertaken and financed several capital projects in the last few years. Total costs related to the best and most likely options in the master plan at this time are estimated to be \$100 million spread over 30 years. Funds will likely come from a variety of sources including state subsidized revenue bonds, grants, and rates.

The City is evaluating options concerning the sale or redevelopment of three former elementary schools that can be used for economic development possibilities.

Financial Policies

The City has a set of Council approved financial policies that were developed to ensure that financial resources are well managed and available to meet the present and future needs of the citizens of the City of Newport. Financial policies have impacted decisions in both the year under audit (FY2015) and future years.

One key policy is that budgets must balance which means that budgeted current revenues must be equal to or greater than budgeted current expenditures in governmental funds; and revenues and other sources of cash must equal expenditures and other uses of cash in the enterprise funds. In conjunction with this is a policy that revenues must be increased or expenditures decreased in the same fiscal year that deficits appear. A third budget policy states that significant one-time revenues shall only be used for one-time expenditures.

The City Council is required by law to adopt balanced budgets although at times fund balance is appropriated for a specific use. There were no appropriations of fund balance in FY2015, and no adopted budgeted appropriations in FY2016 or FY2017, although it is likely that some of the city's FY2015 surplus will be used to cover a school FY2015 deficit of approximately \$700,000.

Other financial policies deal with debt. These policies state that annual general fund debt service expenditures shall be less than 9% of annual general fund expenditures. The actual general fund debt service expenditures were significantly less than 9%.

A second debt policy says that the term of any bond issue shall not exceed the useful life of the capital project/facility or equipment for which the borrowing is intended. The City has complied with this policy.

There are reporting compliance policies that require the City administration to provide budget to actual reports to the City Council on a monthly basis and to provide quarterly budget, actual and projected revenues and expenditures to the State Office of Municipal Affairs. The City administration complied with these policies during FY2015.

Pension and other postemployment benefits

The City sponsors two single-employer defined benefit pension plans for police and fire employees. Each year, an independent actuary engaged by the pension plans calculates the amount of the annual contribution that the City must make to the pension plans to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the City fully funds each year's annual actuarially determined contributions to the pension plans. The City also fully funds the calculation by the actuary of the annual amortization of the unfunded actuarially accrued liability. The liability is being amortized over a closed 30-year period. The City is in the 16th year (declining to 1). The plans are currently funded at 48% for the fire plan and 65% for the police plan.

The City provides pension benefits for its non-public safety employees (except teachers) through a state-wide plan managed by the State Treasurer. Newport teachers are members of the State of Rhode Island Employee Retirement System. State-hired actuaries determine the funding level and unfunded actuarially accrued liability for each individual participating employer. The City is 64% funded in the State's municipal employees' retirement plan. The State of Rhode Island General Assembly enacted legislation that significantly changed the pension plan for participants in the State Municipal Employees Plan and the State Teachers Plan and reduced the long-term liability. These changes are reflected in the June 30, 2015 Statements of Net Position and Activities, footnotes and required supplementary information. The City implemented Governmental Accounting Standard 68 on pensions in FY2015 in accordance with the Standard.

The City provides postretirement health coverage for all vested retirees, certain dependents and beneficiaries and life insurance benefits to police retirees. Vesting and participation is determined by bargaining contract and varies by length of employment and type of employment. As of June 30, 2015, 526 retirees were eligible to receive health insurance benefits, which are currently financed on a pay-as-you-go basis. The actuarial calculation of the combined municipal and school liability as of June 30, 2015 is \$119 million. The City has established and is funding a trust to accumulate assets for the payment of other post-employment benefits in the future. Assets of \$37 million have been accumulated as of June 30, 2015. Benefits will not be paid from the trust until such time as City management feels that sufficient assets are available to begin paying benefits. Retiree benefits and various options are currently being studied in order to reduce the liability.

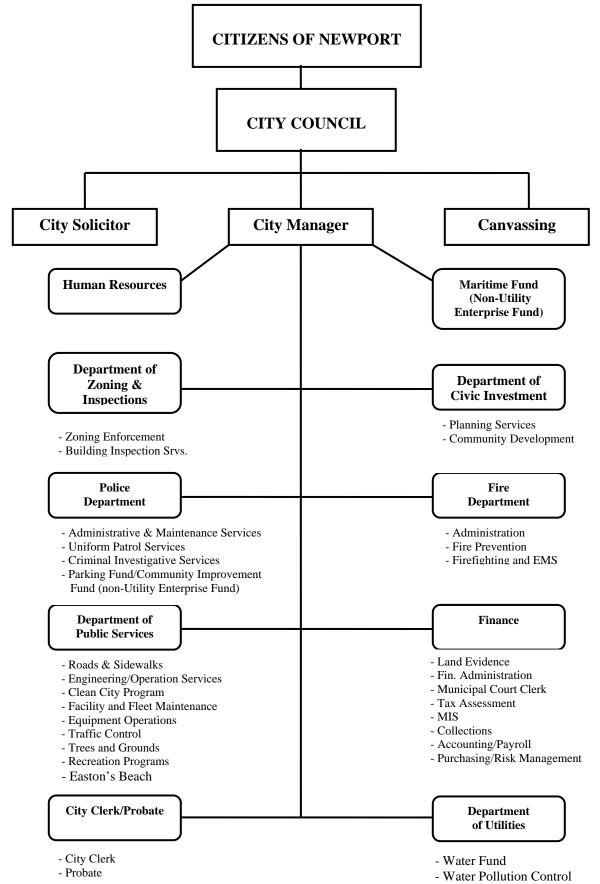

Additional information on the City's pension arrangements and postemployment benefits can be found in Notes V B. and V C. in the notes to the basic financial statements.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We would like to express our appreciation to all members of the department. Credit also must be given to the Mayor and City Council for their unfailing support for achieving and maintaining the highest standards of professionalism in the management of the City of Newport's finances.

Respectfully submitted,

Laura L. Sitrin, CPA Director of Finance

Independent Auditors' Report

To the Members of the City Council City of Newport, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund and the aggregate remaining fund information of the City of Newport, Rhode Island, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Newport, Rhode Island's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Newport, Rhode Island, as of June 30, 2015 and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 18 to the financial statements, during the fiscal year ended June 30, 2015, the City adopted new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. The net position of the City has been restated to recognize the net pension liability required in implementing both GASB No. 68 and GASB No.71. Our opinion is not modified with respect to this matter

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 17, the pension schedules on pages 81 through 90 and the OPEB schedules on pages 91 and 92 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Newport, Rhode Island's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015 on our consideration of the City of Newport, Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Newport, Rhode Island's internal control over financial reporting and compliance.

Blum, Shapino + Company, P.C.

West Hartford, Connecticut December 22, 2015

As management of the City of Newport, we offer readers of the City of Newport's financial statements this narrative overview and analysis of the financial activities of the City of Newport for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the Introductory section of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City of Newport exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$115,158,906 (*net position*).
- The government's net position increased by \$19,631,829. Governmental activities' net position increased by \$11,760,412 due primarily to an increase in property taxes of \$2.7 million, sale of Underwood School of \$2.4 million, additional human services grant revenue of \$1.6 million and expenditure savings. Business-type activities had an increase of \$7,871,417, including a prior period adjustment to correct an error, in net position due to programmed rate increases in the water and water pollution control departments over the last couple of years to pay debt service related to major capital improvements.
- At June 30, 2015, the City of Newport's governmental funds reported a combined ending fund balance of \$45,730, 778, an increase of \$11,404,211 in comparison to the prior year fund balance. Of the total fund balance, \$29,582,240 (65%) is either nonspendable, restricted or committed, leaving \$16,148,538 as available for spending at the City's discretion (assigned and unassigned fund balance).
- At the end of the current fiscal year, total fund balance for the general fund was \$17,610,107, or 17.95% of total general fund expenditures and net other financing uses. \$1,396,889 of the fund balance is restricted or committed leaving \$16,213,218 of assigned or unassigned fund balance. The general fund total fund balance is split between the control of the City Council and the School Committee. Assigned and unassigned fund balance under the control of the City Council is \$16,342,107, or 19.1% of city operating expenditures and other financing uses. The School's fund balance is a deficit of \$128,889.
- The City of Newport's long-term liabilities increase of \$4,961,405 is the result of new debt (note that beginning long-term liabilities was restated by \$128,917,467 to add pension liabilities as required by Governmental Accounting Standards Statement 68).

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City of Newport's basic financial statements. The City of Newport's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Newport's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Newport's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Newport is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Newport that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Newport include general government, education, public safety, highways and streets, sanitation, economic development, and culture and recreation. The business-type activities of the City of Newport include water utilities, sewer utilities (water pollution control utilities), parking facilities, and harbor facilities.

The government-wide financial statements can be found on Exhibits I and II of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Newport can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Fund Financial Statements (Continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Newport maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund (made up of four funds,

including the City's General Fund, the School Unrestricted Fund, the Property Acquisition Fund and the Gifts Fund), the Community Development Block Grant Fund, the Capital Projects Fund and the Permanent Fund, all of which are considered to be major funds. Data from the other six governmental funds are combined into a single, aggregated presentation. Individual fund data for the combined General Fund is included on Exhibits A-5 and A-6 of this report. Individual fund data for each of the nonmajor governmental funds is included on Exhibits C-1 and C-2 of this report.

The City of Newport adopts an annual budget for its General Fund and School Unrestricted Fund. A Budgetary comparison statement has been provided on Exhibit A-1.

Proprietary funds

The City of Newport maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Newport uses enterprise funds to account for its water operations, water pollution control operations, parking operations, and its maritime (harbor) operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Newport's various functions. The City of Newport uses an internal service fund to account for its fleet and equipment maintenance operations. Because this fund predominantly benefits governmental rather than business-type functions, it has been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Utilities Fund and for the Water Pollution Control operation, both of which are considered to be major funds of the City of Newport. The Parking Operations Fund and Maritime Fund are combined into a single, aggregated presentation in the proprietary fund financial statements. The internal service fund is presented separately in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on Exhibits VI, VII and VIII of this report.

Fund Financial Statements (Continued)

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Newport's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on Exhibits IX and X of this report.

Notes to the basic financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 30-80 of this report.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Newport's progress in funding its obligation to provide pension and other post-employment benefits to its employees.

The combining statements referred to earlier in connection with the general fund, nonmajor governmental funds and proprietary funds are presented immediately following the required supplementary information on pensions.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Newport, assets exceeded liabilities by \$115,158,906 at the close of the most recent fiscal year.

The City of Newport's unrestricted deficit was reduced by \$19,631,829 (note that beginning long-term liabilities was restated by \$128,917,467 to add pension liabilities as required by Governmental Accounting Standards Statement 68). Consistent with prior years the City of Newport has a significant investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City of Newport uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Newport's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Newport's Net Position

An additional portion of the City of Newport's net position (35%) represents resources that are restricted by external parties.

The City's net position increased by \$19,631,829 during the current fiscal year. Several factors contributed to this increase. The FY2015 total tax levy increase was 3.02% leading to an increase of \$2.7 million in property and motor vehicle taxes. Other major increases included the sale of Underwood School for \$2.4 million, additional human services grant revenues of \$1.6 million and lower than budgeted expenditures.

Government-Wide Financial Analysis (Continued)

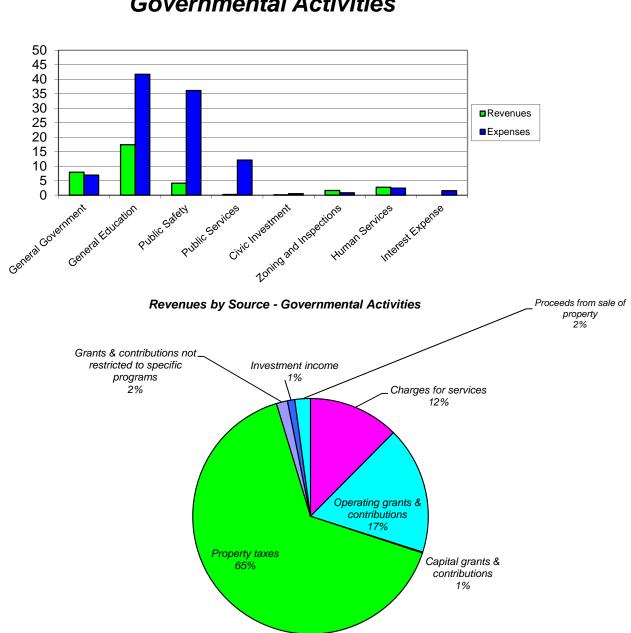

Governmental Activities

Governmental activities net position increased by \$11,760,412. A comparison of FY2015 and FY2014 activity can be found on the next page which indicates the changes identified above.

Government-Wide Financial Analysis (Continued)

Governmental Activities (continued)

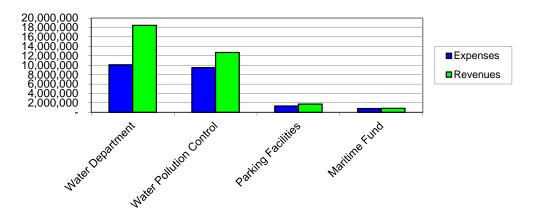

Expenses and Program Revenues -Governmental Activities

Government-Wide Financial Analysis (Continued)

Business-type activities

Business-type activities' net position increased by \$7,871,417. The increase was due primarily to a the third and final rate increase for debt service related to the \$85 million water treatment plants project which were included in the water rates. The rate increase in the water rates was to help fund debt service.

The Water Fund had income before transfers of \$5,495,280 for the year ended June 30, 2015, the Water Pollution Control Fund had income before transfers of \$2,193,311, and the non-major proprietary funds had income before transfers of \$482,826.

Expenses and Program Revenues - Business-type Activities

Financial Analysis of the City's Funds

As noted earlier, the City of Newport uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City of Newport's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Newport's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Newport's governmental funds reported combined ending fund balances of \$45,730,778, an increase of \$11,404,211 in comparison with the prior year fund balance. Much of the total combined ending fund balance amount (\$29,582,240) constitutes fund balance that is either nonspendable, restricted by outside legal sources or committed for capital or contractual purposes. An additional \$2,844,064 of the fund balance is assigned by the City Council and the balance of \$13,304,474 is unassigned, which is available for spending at the government's discretion.

Governmental funds (continued)

The General Fund is the combined operating general fund of the City of Newport and the operating general fund of the Newport Public Schools. Two smaller funds are combined into the General Fund as well. They include the property acquisition fund and a gifts fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$13,369,154, while total fund balance was \$17,610,107. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 13.62% of total General Fund expenditures, transfers and proceeds from sale of assets, while total fund balance represents 17.95% of that same amount.

The total fund balance in the general operating fund of the City (does not include the gift fund and the property acquisition fund also combined into the general fund) under the control of the City Council is \$14,789,749 which is 17.25% of City operating expenditures and other financing uses. The general operating fund of the Newport Public Schools is under the control of the elected School Committee. That fund deficit is (\$128,889). It is not particularly meaningful to compare the school general fund balance to school expenditures.

The fund balance of the City's operating general fund under the control of the City Council increased by \$2,804,758 (not including the property acquisition fund and gifts fund) due to building permit revenue of \$500,000 above what was anticipated; the use of \$838,000 of a bond premium to pay debt service; and expenditures of \$1,000,000 less than budgeted because of a freeze on discretionary spending. The fund balance of the Newport Schools under the control of the School Committee decreased by \$643,804 due to expenditures that were larger than budgeted. The table on the next page shows the comparison of revenues and expenditures in the General Fund between FY2015 and FY2014.

There was an overall increase in City general operating fund revenues of \$3,479,016 from the prior year due to an increase in property tax revenue. The School saw an increase in revenues of \$136,053 from the prior year due to an increase in state and federal aid.

Governmental funds (continued)

The Community Development Block Grant Fund had an increase in fund balance of \$298,861 which is due to timing differences between grant revenues and expenditures.

The Capital Projects Fund had an increase in fund balance of \$5,866,519 that is primarily the result of bond proceeds and timing differences between revenues and actual expenditures as of June 30, 2015.

The Permanent Fund had an increase in fund balance of \$398,168 due to net results from market returns.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were due to budgetary carryovers from fiscal year 2014 of \$659,885.

Proprietary funds

The City of Newport's proprietary funds provide the same type of information found in the governmentwide financial statements, but in more detail.

Unrestricted net position of the Water Fund at the end of the year amounted to a deficit of (\$4,915,957) while restricted net position was \$16,739,519 and net position invested in capital assets, net of related debt was \$37,344,076. The Rhode Island Public Utilities Commission sets rates at a level that allows revenues to the extent that they cover approved operating, debt service and capital expenditures. The rates do not allow for reserves, thus any unforeseen expense is covered by curbing operating and maintenance expenses.

Unrestricted net position of the Water Pollution Control Fund at the end of the year amounted to a deficit of (\$153,468) while restricted net position was \$10,752,415 and net position invested in capital assets, net of related debt was \$54,036,456. Much of the revenue in the Water Pollution Control Fund is to fund future debt service related to capital improvements. Cash is restricted in the Water Pollution Control Fund because it is subject to debt covenant requirements. Most of the Water Pollution Control Fund net position is restricted, held in trust or invested in capital assets, net of related debt.

The Parking Fund had unrestricted net position of \$4,202,643 and the Maritime Fund had unrestricted net position of \$1,465,943. The total growth in net position for the Water Fund was \$5,495,280; for the Water Pollution Control Fund \$2,193,311; for the parking operations fund \$323,089. The Maritime Fund has a reduction in net position of \$140,263. Factors concerning the finances of these funds have already been addressed in the discussion of the City of Newport's business-type activities.

Capital Asset and Debt Administration

Capital assets

The City of Newport's investment in capital assets for its governmental and business-type activities as of June 30, 2015 is \$339,460,018 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and systems, machinery and equipment, vehicles, infrastructure and construction in progress. There was a total increase in the City of Newport's investment in capital assets for the current fiscal year of 3.8%. Individually, governmental activities had a 0.5% increase and business-type activities had a 5.7% increase.

Major capital asset events during the current fiscal year included the following:

- \$13,966,998 was spent on water treatment plants, water infrastructure, and mains.
- \$4,147,069 was spent on combined sewer overflow and other water pollution control issues.
- \$3,016,824 was spent on road and sidewalk reconstruction and improvements.
- \$413,053 was spent on fire equipment replacement.
- \$360,987 was spent on Freebody Park improvements
- \$336,562 was spent on information systems network enhancements

Additional information on the City of Newport's capital assets can be found Note 5 to the Financial Statements.

Capital Asset and Debt Administration (Continued)

Long-term debt

At the end of the current fiscal year, the City of Newport had total bonded debt outstanding of \$167,138,572. Of this amount, \$46,178,536 comprises debt backed by the full faith and credit of the government. The remainder of the City of Newport's debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds).

| | Governmen | tal | Activities | Business-ty | /pe | Activities | Total | | | | |

| | | | | | | | | | | | |

General Obligation and Revenue Bonds

The City of Newport's total bonds increased by \$9,146,359 (6%) during the current fiscal year. The increase was the result of new governmental debt of \$7,235,000 for road and facility improvement and revenue bond drawdowns of \$9,850,850 primarily for the water treatment plants project. Bonds of \$7,939,491 were retired during fiscal year 2015.

The City of Newport maintains an "AA+" rating from Standard and Poor for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may have outstanding to 3% of its assessed property values. The current debt limitation for the City is \$179,550,194, which is significantly in excess of the City's outstanding general obligation debt.

Additional information on the City of Newport's long-term debt can be found in Note 7 to the Financial Statements.

Economic Factors and Next Year's Budgets and Rates

- The average annual not seasonally adjusted unemployment rate in 2014 for the City of Newport was 6.3%, which is less than the state's unemployment rate of 6.6% but higher than the federal unemployment rate of 5.8% in November 2014.
- The occupancy rate of the government's central business district is about 98% during the summer tourist season (May through October) and 65% in the remaining months.
- Inflationary trends in the region follow national indices.

All of these factors were considered in preparing the City of Newport's budget for the 2015 fiscal year.

Fund balance in the City's general operating fund at June 30, 2015 is \$17,610,107 or 17.8% of City general operating fund expenditures, which complies with the City's fiscal policy of maintaining a minimum of 10% of total General Fund expenditures and transfers out as a reserve.

Economic Factors and Next Year's Budgets and Rates (Continued)

The Water Pollution Control Fund's rates did not change in FY2015 but are expected to increase in the next several years to fund projects required under a consent decree with the federal Environmental Protection Agency. The total cost for projects associated with the consent decree is not known but is estimated to be around \$100 million. The Water Fund rates are controlled and set by the Rhode Island Public Utilities Commission. A rate increase was approved effective July 1, 2014 of 22.1% to cover debt service related to the rebuilding and major improvements in the two water treatment plants.

Requests for Information

This financial report is designed to provide a general overview of the City of Newport's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Laura Sitrin, City of Newport, 43 Broadway, Newport, Rhode Island 02840.

CITY OF NEWPORT, RHODE ISLAND STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS (CONTINUED) FOR THE YEAR ENDED JUNE 30, 2015

| Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities: | | |
|---|-----|--|
| Net Change in Fund Balances-Total Governmental Funds | \$ | 11,404,211 |
| Governmental funds report capital outlays as expenditures. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense: | | |
| Capital outlay Depreciation expense Loss on disposition of assets | | 5,516,193 (3,923,991) (955,286) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, and revenues recognized in the funds are not reported in the statement of activities: | | |
| Property tax receivable - accrual basis change Activity related to property tax and loan receivable Change in net pension assets | | (362,963) 1,685,374 876,845 |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are amortized and deferred in the statement of activities. The details of these differences in the treatment of long-term debt and related items are as follows: | | |
| Bonds and loans issued Bond principal payments Bond issue premium Capital lease payments | | (7,235,000) 3,050,000 (423,546) 101,130 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. | | |
| Compensated absences Claims and judgement OPEB obligations Net change for pension liability Amortization of prepaid interest Change in accrued interest Amortization of bond premiums Deferred outflows/inflows related to pension actuarial experience Deferred outflows/inflows related to assumption changes Deferred outflows/inflows related to pensions investment gains or losses Deferred outflows related to contributions made after the measurement date | _ | 249,144 13,000 315,314 1,554,603 (72,192) 57,480 270,190 2,753,475 (779,262) (2,827,976) 493,669 |
| Change in Net Position of Governmental Activities (Exhibit II) | \$_ | 11,760,412 |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Newport, Rhode Island (the City) have been prepared in conformity with accounting principles generally accepted in the United States of America as applicable to governmental entities. In certain circumstances, summaries of the City's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

A. Reporting Entity

The City was founded in 1639, incorporated under the laws of the State of Rhode Island in 1784 and rechartered in 1853. The City is governed by a home rule charter which provides for a Council/City Manager form of government. Legislative authority is vested in a seven-member City Council, of which four are elected at large and three from voting wards. The Mayor is chosen by council members from among its four at-large members. A seven-member School Committee, all elected at large, is vested with autonomous legislative authority over the public school system. Members of both the City Council and School Committee are elected to non-partisan biennial terms.

The City Manager is appointed by the Council and serves as the chief executive officer over all municipal services except those performed by the Solicitor, Canvassing Authority, and municipal judges, each of whom is appointed by and reports directly to the Council. Municipal services include public safety; potable water and wastewater collection, treatment and distribution; solid waste collection and disposal; street and sidewalk maintenance and operations which support economic and residential development, open space preservation and State law and City code enforcement.

The Superintendent of Schools, appointed by the School Committee, is the chief executive officer for the school system. The school system provides elementary and primary education to City residents and vocational programs to other Newport County residents.

The accompanying financial statements present the government. The City does not have any organizations that meet the definition of component unit, entities for which the government is considered to be financially accountable, under the Governmental Accounting Standards Board Statement No. 61.

B. Basis of Presentation and Measurement Focus - Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Agency Funds have no measurement focus but are accounted for using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments for the interfund services provided between the governmental funds and enterprise and internal service funds, and charges for services between the water fund and the water pollution control fund.

C. Basis of Presentation and Measurement Focus - Fund Financial Statements

The fund financial statements provide information about the government's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions under capital leases are reported as other financing sources.

Local taxes, including property taxes and franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. It is combined with the School's unrestricted fund, the property proceeds fund and the gift fund for purposes of financial reporting.

The *Community Development Block Grant Fund* (CDBG fund) is a special revenue fund, whereby the City receives federal funding to promote specific types of community and economic development. Funds can only be spent in accordance with a legally binding grant agreement.

The *Permanent Funds* are used to account for resources legally held in trust for specific functions, normally provided by governments. In most cases, only the earnings on the principal can be expended.

The *Capital Projects Fund* is used to account for the acquisition of capital assets or construction of major capital projects other than those financed by proprietary funds.

The City reports the following major proprietary funds:

The *Water Fund* records the costs of collection and treatment of raw water and the distribution of potable water for user consumption and fire protection. The City's water system directly serves retail users throughout Newport and in parts of two neighboring towns. The Water Fund also provides water to the United States Naval Base and customers of a neighboring water and fire district through wholesale contracts. Costs of servicing the users are recovered through both fixed and commodity charges under tariffs regulated by the Rhode Island Public Utilities Commission.

The *Water Pollution Control Fund* records the costs of collection and treatment of wastewater, the extraction and treatment of sludge and the discharge of treated effluent. These costs are recovered from the retail customers through rates assessed on their metered water charges and from contractual agreements with the United States Naval Base and a neighboring town.

Additionally, the City reports the following fund types:

The *Special Revenue Funds* account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes by an external party.

The *Debt Service Fund* accounts for resources accumulated and payments made for principal and interest on a qualified zone (QZAB) bond, the proceeds of which were used to help finance the construction and renovation of Thompson Middle School.

The *Internal Service Fund*, a proprietary type fund, is used to account for fleet management services provided to other departments of the government on a cost reimbursement basis.

The *Enterprise Funds* are used to account for those operations that are financed and operated in a manner similar to private business, primarily through user charges.

The *Private-Purpose Trust Fund* is used to account for resources legally held in trust for use by outside individuals, trusts or organizations to provide awards and scholarships in accordance with a donor's specific instructions or criteria.

The *Pension Trust Fund* accounts for the activities of the Police Retirement Fund and the Fire Retirement Fund, which accumulate resources for pension benefits to qualified police and fire employees.

The OPEB Trust Fund accumulates resources for future retiree health benefits and retiree life insurance benefits for eligible teachers and police retirees.

The *Agency Funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds include student activity funds and a community group that exists for purposes normally provided by the City.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule include fees for services provided by one fund to another fund, annual lease payments for vehicles paid to the capital projects fund, and other charges between the City's water and water pollution control (sewer) function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water Fund, the Water Pollution Control Fund, the Parking Fund, the Beach Fund, the Maritime Fund and the City's internal service fund are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

It is the City's policy for all funds, that when an expenditure/expense is incurred for purposes for which both restricted and unrestricted resources, including fund balances, are available, The City considers restricted amounts to be spent before any unrestricted amounts are used. Furthermore, it is the City's policy that when an expenditure/expense is incurred for purposes for which committed, assigned or unassigned resources, including fund balances, are available, the City considers committed amounts to be spent first, followed by assigned amounts and lastly unassigned amounts.

D. Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

The City's deposits are subject to certain State and municipal restrictions. Under Rhode Island general laws, depository institutions must insure deposits of the City or pledge eligible collateral equal to 100% of deposits maturing in greater than 60 days. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council has further enacted restrictions which essentially limit short-term investments to U.S. Treasuries or debt instruments issued by agencies of the U.S. Government or certificates of deposit less than or equal to the amount covered by the Federal Deposit Insurance Corporation (FDIC) or the Federal Savings and Loan Corporation (FSLIC). Maturities of these instruments are required to be matched to any underlying liabilities.

Investments

Investments of the City are reported at fair value. The City accounts for the carrying value of investments by utilizing the specific identification method. Fair value is determined by the last reported bid price on the last business day of the year.

The City Council restricts both the type and maturity of instruments in which City assets, other than those of fiduciary funds and deferred compensation plans, may be invested. Acceptable investments include certificates of deposit, debt instruments issued by the U.S. Treasury and agencies of the

Federal government, or high grade municipal securities. Maturities must be matched to meet the underlying obligations for which invested proceeds were collected. The authority for investing fiduciary assets is vested with a commission appointed by and accountable to the City Council.

E. Receivables and Payables

Interfunds

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Property Taxes and Other Receivables

All property tax receivables, user fees receivables and notes receivable are shown net of an allowance for uncollectibles. The property tax receivable allowance at June 30, 2015, is equal to 70% of outstanding property taxes. Other allowances vary depending on the nature of the receivable and the history of collections.

Taxes are levied each July 1 on (a) the full and fair value of real and tangible personal property owned within the City the previous December 31; and (b) the value, as determined by the Rhode Island Vehicle Valuation Commission, of vehicles registered within the City the previous calendar year, prorated for the actual number of days so registered. Taxes are levied for the year commencing on that date, payable in equal quarterly installments on the fifth days of August, November, February and May. Taxes are considered overdue on the 6th day of each quarter and are assessed penalties and will be collected through the sale of tax titles if required. The City has a tax lien on the property as a matter of law on the date the roll is certified, which is December 31 of the previous year.

Rhode Island general laws restrict the City's ability to increase its total tax levy by more than 4%.

F. Inventories and Prepaid Items

All inventories are valued at cost using the first-in, first-out (FIFO) method of valuation.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as machinery and equipment with an initial, individual cost of more than \$10,000, land or building improvements of more than \$20,000 and infrastructure of more than \$25,000, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The value of both governmental and business-type activities infrastructure is fully reported and depreciated as applicable.

Property, plant and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

| Assets | Years |
|------------------------------------|----------|
| Buildings | 40 - 125 |
| Building improvements | 20 - 40 |
| Water and sewer improvements | 20 - 50 |
| Water and sewer infrastructure | 50 - 100 |
| Infrastructure | 75 |
| Equipment and other capital assets | 6 - 30 |

H. Compensated Absences

City and school employees are allowed under various labor agreements and by City ordinance to accumulate earned but unused vacation and sick leave. The City reports a liability based on the various provisions as follows:

- Supervisory (Nonunion); Supervisory (NEA); AFSCME-City maximum sick leave accrual is 960 hours maximum sick leave payout is 65% up to \$7,500 - \$25,000 if 10 years service maximum vacation accrual and payout is 200-300 hours
- Police and Fire:

maximum vacation accrual and payout is 400 hours, except that police officers hired after July 1, 2014 are capped at 300 hours.

Police officers are capped at \$25,000 maximum payout; no cap for firefighters

• Teachers:

sick leave payout of 25% of number of days in excess of 50 and up to a maximum of 165

• AFSCME - School:

maximum vacation accrual of 40 days; all accumulated payable upon separation maximum sick leave accrual of 225 days; payout 30% of days greater than 60 and less than 123

All vacation and sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. The current portion of the leave is determined based on historical and current usage. The current and non-current portion is recorded in the government-wide financial statements. The entire amount is reported as current in the proprietary fund financial statements.

I. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental fund financial statements, bond premiums and discounts, as well as bond issuance costs, are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. In the government-wide financial statements, the estimated liability for all judgments and claims is recorded as a liability.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred outflows related to pension in the government-wide and business-type activities, enterprise funds statements of net position. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City reports deferred inflows of resources related to pensions in the in the government-wide and business-type activities, enterprise funds statements of net position. A deferred inflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

For governmental funds, the City reports unavailable revenue, which arises only under the modified accrual basis of accounting. Accordingly, unavailable revenue is reported only in the governmental funds' balance sheet. The governmental funds report unavailable revenue from three sources: property taxes, loans receivable, and intergovernmental receivables. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

K. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's Police and Fire Pension Plans have been determined on the economic resources basis using

full accrual accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of Rhode Island Teacher's Retirement System, the State of Rhode Island Teachers Survivor Benefits Fund and the State of Rhode Island Municipal Retirement System Pension Plans have been determined on the same basis as they are reported by the State of Rhode Island Retirement System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. Restricted Assets

Certain proceeds of the Water Pollution Control Fund and Water Fund revenue bonds are classified as restricted assets on the statement of net assets because they are maintained in separate escrow accounts managed by trustees in accordance with the bond covenants. These include debt service reserves and capitalized interest.

The Water Fund has additional cash on the balance sheet classified as restricted since, by order of the Rhode Island Public Utilities Commission, it may only be used for debt service, capital, electricity, certain specified retiree/new hire benefits, or chemical expenditures.

Endowment funds held by the City for various purposes are restricted to expenditure of the investment income only for the purposes designated by the various donors.

M. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

N. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

O. Fund Balance Policies

In the fund financial statements, governmental funds report fund balances in one of five categories depending on the purposes of the revenue sources. Nonspendable fund balances include amounts that are legally or contractually required to be maintained intact, for instance the nonexpendable portion of a trust; or are resources in nonspendable form such as inventory and prepaid amounts. Amounts

that are legally required by outside parties to be used for a specific purpose; or have restrictions improved by law through constitutional provisions or enabling legislation, are classified in the restricted category.

Committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The City's highest level of authority is a city ordinance properly adopted by the City Council. Committed fund balance also includes contractual obligations where resources have been specifically committed for use in satisfying those contractual requirements. Assigned fund balance includes amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted or committed. Unassigned fund balance is the residual classification for the general fund, the school unrestricted fund, and deficit fund balances in other funds.

P. Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

A budget is adopted for the General and School Unrestricted Funds on the modified accrual basis with the exception that encumbrances are treated as budgeted expenditures in the year of the commitment to purchase.

In accordance with the City Charter, the City Manager must present to the Council a recommended annual budget for the operations of all municipal departments no later than 45 days prior to the commencement of each fiscal year. The recommended budget must include an appropriation to fund mandated contractual obligations in excess of school anticipated revenues. The Council may amend recommended municipal appropriations but not those of the school. The budget must be adopted by ordinance by the last Council meeting prior to the new fiscal year.

- Budgets are adopted on a legally enacted budgetary basis, which differs from generally accepted accounting principles (GAAP) in that budgetary expenditures for goods and non-employment services are recognized when legally binding orders referred to as encumbrances are placed.
- In addition to limits enforced by the budget ordinance, the City Charter further restricts the incurrence of municipal expenditures or expenses to budgeted revenues at the fund level. The City Manager must periodically review revenues and reduce annual appropriations sufficiently to cover any shortfalls in budgeted revenues.
- Costs of operations for all departments established within the City Charter must be appropriated through an annual budget ordinance. These departments are presented within the General Fund and the School Unrestricted Fund.
- Municipal budgetary control is legally enforced at the department level.
- Appropriation transfers between departments require approval by five of the seven-member Council. Other appropriation increases require both the establishment of a funding source and passage of a

budget amendment ordinance. Amendments to the budget during the year totaled \$689,885 from fund balance due to prior year appropriation carryovers.

- Intra-departmental transfers of municipal appropriations may be made with the approval of the City Manager or his designee.
- Unencumbered and unexpended appropriations lapse at fiscal year-end. School budgetary control is legally enforced only at the unrestricted fund level; inter-departmental transfers may be made without School Committee approval.

B. Budgetary-GAAP Reporting Reconciliation

The General Fund Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual (Budgetary Basis) in the financial statements presents comparisons of the legally adopted budget with actual data on a budgetary basis. The budgetary basis differs from GAAP because the GAAP basis includes encumbrances that are not recognized under the budgetary basis.

A reconciliation of revenues, expenditures, and fund balance between the accounting treatment required by GAAP (Exhibit IV), and budgetary requirements (Exhibit V), is as follows:

| | General Fund | | | | | |
|--|---------------------|-----------------------------|-----------------|--|--|--|
| · · | Revenues | Expenditures | Fund Balance | | | |
| Balance, Budgetary Basis, Exhibit V - June 30, 2015 Encumbrances outstanding at June 30, 2014 and liquidated during the year ended June 30, 2015 | 101,154,139 | \$ 97,708,414 \$ 659,885 | 13,358,979 | | | |
| Add unbudgeted Property Acquisition Fund and Gift Fund State teachers' retirement on-behalf payments | 47,435 1,480,463 | 72,384 1,480,463 | 2,949,247 | | | |
| Miscellaneous adjustments Encumbrances outstanding at June 30, 2015 | | 28,810 | 10,175 | | | |
| charged to budgetary expenditures | | (1,291,706) | 1,291,706 | | | |
| Balance, GAAP Basis, Exhibit IV - June 30, 2015 | 102,682,037 | \$\$ | 17,610,107 | | | |

C. Excess of Expenditures over Appropriations

The legal level of control for which expenditures cannot exceed appropriations is at the category level within a department. The table below shows the amounts by which certain departmental expenditures exceeded fiscal year 2015 appropriations (after approved transfers).

| Department | • | Expenditures in xcess of Budget | | | |
|---|----|------------------------------------|--|--|--|
| City manager | \$ | 391,081 | | | |
| Public services School unrestricted fund | | 81,603 1,256,304 | | | |

The deficits above were offset, in most cases, by revenues above what was anticipated.

D. Donor Restricted Endowments

Investments in marketable equity and all debt securities are carried at market value. The City allocates investment income in accordance with donor restrictions and Rhode Island law, which adopted the provisions of the Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA requires the investment of endowments in good faith and with the care that an ordinarily prudent person in a like position would exercise under similar circumstances. It requires prudence in incurring investment costs, authorizing only costs that are appropriate and reasonable. Factors to be considered in investing are expanded to include, for example, the effects of inflation. UPMIFA emphasizes that investment decisions be made in relation to the overall resources of the City. Net appreciation on investments at June 30, 2015 was \$242,055 and is reported in restricted net position.

3. CASH AND INVESTMENTS

Cash and Cash Equivalents

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. Rhode Island public law requires 100% of public deposits in a qualified public depository with maturities greater than sixty (60) days are collateralized with either bank segregated assets, in a trust department or in custodial accounts at a federal reserve bank or federal home loan bank. Any institution not meeting certain federally prescribed minimum capital standards must insure deposits or provide collateral regardless of maturities. The City Council further restricts deposits and short-term investments (less than 3 months) to insured or collateralized cash accounts, U.S. Treasuries, debt instruments issued by U.S. Government agencies or Certificates of Deposit (CDs) less than or equal to the amount covered by the Federal Deposit Insurance Corporation (FDIC). The City Council also requires that CDs in excess of FDIC limits and any repurchase agreements are collateralized in amounts of at least 102% of the market value of the deposit. At June 30, 2015, the City's deposits are not exposed to custodial risk since most of the above deposits are collateralized at 102% with assets held either in trust or by a third party bank, in U.S. Government National Mortgage Association (GNMA) pass-through pools or Federal Home Loan Mortgage Corporation (FHLMC) securities held in the City's name. The remaining deposits are insured by the FDIC.

As of June 30, 2015, the City's bank balance of \$60,772,977 was insured and collateralized as follows:

| Insured | \$ | 1,048,746 |
|---|-----|------------|
| Collateralized: | | |
| Collateral held by the pledging bank's trust department | | |
| in the City's name | _ | 59,724,231 |
| | | |
| Total Amount Subject to Custodial Credit Risk | \$_ | 60,772,977 |

Investments

Certain investments are covered by the Securities Investor Protection Corporation (SIPC) up to \$500,000, including \$100,000 of cash from sale or for purchase of investments, but not cash held solely for the purpose of earning interest. SIPC protects securities such as notes, stocks, bonds, debentures, certificates of deposit and money funds.

At June 30, 2015, the City's investments (including restricted investments) consisted of the following:

| | | | Investment Maturities (In Years) | | | | | 1 |
|-----------------------------------|----|-------------|----------------------------------|-------------|----|---------------|-----------|--------------|
| Type of Investment | | Fair Value | | Less Than 1 | | 1 - 5 | 6 - 10 | More than 10 |
| Debt Securities: | | | | | | | | |
| Money Market Funds | \$ | 102,642 | \$ | 102,642 | \$ | \$ | | \$ |
| Certificates of Deposits | | 3,722,257 | | 3,722,257 | | | | |

| | | 40,112,889 | \$ | 7,442,009 | \$ | 20,407,556 \$ | 4,339,680 | \$ 7,923,644 |
| Other Investments: | | | | | | | | |
| Alternative Investments | | 8,990,792 | | | | | | |
| Equity Mutual Funds | _ | 116,184,270 | _ | | | | | |
| | \$ | 165,287,951 | | | | | | |

Interest Rate Risk

The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The City Investment Policy requires that at least 90% of investments shall at any time be invested in U.S. Treasury or Agency securities, top grade (AAA, AA and A or those with bond insurance) municipal securities, certificates of deposit backed by collateral consisting of U.S. Treasuries or Agencies or covered by FDIC or FSLIC insurance, and repurchase contracts backed by collateral consisting of U.S. Treasuries or Agencies and delivered to the City or held by an independent third party. The policy also allows for investment in uncollateralized Certificates of Deposit of Rhode Island banks. The policy further restricts investments with a maturity of greater than one year to 10% of total investments or \$2,000,000, whichever is lower. The City's Certificates of Deposit all have maturity dates of less than one year. The State of Rhode Island does not have any pertinent laws on investments that apply to municipalities.

Certificates of Deposit

Certificates of deposit are all insured by FDIC insurance. The weighted average maturity of all certificates of deposit is .39 years. The City intends to hold all certificates to maturity, although they are subject to interest rate risk in the event that they are sold prior to maturity.

The City's investments in money market funds, government securities and fixed income mutual funds had average ratings as follows by Standard & Poor's.

. . .

| Average Rating | M | Money Market utual Funds | U.S. Government Agency Securities | <u>[</u> | Fixed Income Mutual Funds |
|----------------|----|--------------------------------|--|----------|---------------------------------|
| AAA AA+ | \$ | 102,642 \$ | 6 506 559 | \$ | 15,139,891 |
| AA+ AA- | | | 6,596,558 | | 14,551,541 |
| | \$ | 102,642 \$ | 6,596,558 | \$_ | 29,691,432 |

Custodial Credit Risk

The City does not have a formal policy regarding custodial credit risk. Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The following City investments are held by the counterparty's trust department or agent but not in the City's name and therefore are subject to custodial credit risk.

| | | Total | Less Insured | Amount Subject To Custodial |
|-----------------------------------|-----|-----------|-----------------|-----------------------------------|
| | - | Total | Amounts | Credit Risk |
| U.S. Government Agency Securities | \$_ | 6,596,558 | \$ 500,000 | \$ 6,096,558 |

Fiduciary and Permanent Funds

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets. Separate investment policies exist as these assets are invested for long-term growth and/or to meet specific funding targets. The policies identify the asset allocation plans and objectives developed by the Commission. The absolute objectives are to achieve growth in the principal value of assets while maintaining a level of stability and liquidity sufficient to ensure the timely payment of obligations, and to achieve the target rate of return as defined by the actuarial rate of return, currently 7.5% for the pension plans, the OPEB Trust, and trust investments per year net of investment expenses, over a full market cycle defined as 5 to 7 years. The policies are used to inform investment managers, consultants and custodians of the Commission's goals, objectives, and restrictions. The policies are also designed to identify and mitigate performance risk. Investments are not restricted to any particular type of investment. The investment managers are held to certain performance standards as compared to an appropriate national index. The current asset allocation plans set minimum, maximum and target allocation percentages of assets. The Large Cap Value and Large Cap Growth performances are benchmarked against the Russell 1000 Value and Russell 1000 Growth Indices, respectively. The Mid Cap performance is benchmarked against the S & P 400 Index. The Small Cap is compared to the Russell 2000 Growth, the International Equity to the MSCI All-World Free Ex-US Index, and the Fixed Income to the Barclavs Aggregate Index. Further, the Commission instructs managers to invest the equity portion of the portfolio so as to prevent the returns from underperforming the equity index in any three consecutive quarters. Currently, most of the funds are invested in mutual funds or collective trusts. For mutual funds, the managers are subject to the mutual fund prospectus. The assets are rebalanced quarterly as needed.

Fiduciary and Permanent Fund Investments included in the financial statements as of June 30, 2015 totaled \$154,868,102.

4. RECEIVABLES

At June 30, 2015, receivables, including the applicable allowances for doubtful accounts, are as follows:

Governmental Activities

| | _ | General | | CDBG Fund | | Capital Projects Fund | | Other Govern- mental Funds | | Total |
|-----------------------|-----|-------------|-----|--------------|-----|-----------------------------|----|-------------------------------------|----|-------------|

6. INTERFUND RECEIVABLES AND PAYABLES

The composition of interfund balances as of June 30, 2015 is as follows:

| | Corresponding Fund | 0 | Due From | | Due To | Description |
|--|---|-----|----------|-----|-----------|---|
| Major Governmental Funds General Fund | | | | | | |
| | Water Fund S Nonmajor Governmental Fund | \$ | 14,293 | \$ | | Payroll, benefits and overhead Library parking lot |
| | Total | | 14,293 | | 179,876 | |
| Nonmajor Governmental Fund UDAG Fund | s | | | | | |
| | General Fund | | 52,500 | | | Library parking lot |
| Total Governmental Funds | \$ | \$ | 66,793 | \$ | 179,876 | |
| Major Enterprise Funds Water Fund | | | | | | |
| | Water Pollution Control Fund S General Fund Internal Service Fund | \$ | | \$ | (113,083) | Sludge charges Payroll, benefits and overhead Maintenance charges |
| | Total | | - | | 19,861 | |
| Water Pollution Control Fund | | | | | | . |
| | Water Fund | | 107,436 | | | Sludge charges |
| | Total | | 107,436 | | - | |
| Total Enterprise Funds | 5 | \$_ | 107,436 | \$ | 19,861 | |
| Internal Service Fund | Water Funds | \$ | 25,508 | \$ | - | Maintenance charges |
| | | | | = = | | |
| Total All Funds | 9 | \$ | 199,737 | \$_ | 199,737 | |

All interfund balances resulted from the time lag between the dates payments occurred between funds and services or short-term internal financing were provided.

| Advance To | Corresponding Fund | | Amount | Description |
|-------------------------------|-----------------------|-----|---------|----------------------------------|
| Nonmajor Funds | | | | |
| Urban Development | Maritime Fund | \$_ | 267,459 | Loans related to armory building |
| Total advances to other funds | | \$_ | 267,459 | |

Advances

The Newport Redevelopment Authority transferred the armory building and related debt to the City of Newport Maritime Fund in April 2010. The related debt includes a loan from the City of Newport urban development special revenue fund. The remaining balance of \$267,459 is due to the urban development grant fund only upon sale of the armory building. No interest accrues on the advance.

Transfers

A summary of interfund transfers for the year ended June 30, 2015 is as follows:

| | Transfers In | | | | | | | |
|------------------------------|---------------------|----|-----------------------------|-----------------------------------|----|---------------------------|--|--|
| | General Fund | | Capital Projects Fund | Nonmajor Governmental Funds | | Total Transfers Out | | |
| Transfer out: | | | | | | | | |
| General Fund | \$ | \$ | 3,077,060 \$ | | \$ | 3,077,060 | | |
| CDBG Fund | 12,711 | | | | | 12,711 | | |
| Capital Projects Fund | 869,834 | | | | | 869,834 | | |
| Nonmajor Governmental Fund | 306,733 | | | | | 306,733 | | |
| Nonmajor Business-Type Funds | | | 166,890 | 133,110 | | 300,000 | | |
| Total | \$ 1,189,278 | \$ | 3,243,950 \$ | 133,110 | \$ | 4,566,338 | | |

Transfers are generally programmed amounts used to finance capital assets or for other required activities in other funds.

7. CHANGES IN LONG-TERM OBLIGATIONS

The City issues general obligation, Qualified Zone Academy Bonds (QZAB) and revenue bonds to provide funds for the acquisition and construction of major capital facilities. Bonds have been issued for both governmental and business-type activities.

General obligation bonds are direct obligations and pledge the full faith and credit of the City. These bonds are generally issued as 20-year serial bonds. Revenue bonds are obligations that pledge the revenues derived from the use of services in that particular fund. These are issued for business-type activities and are generally collateralized by the asset under construction or renovation. The bonds are usually issued as 20-year bonds. The QZAB bond is a 12-year bond, which is supported by annual sinking fund payments to a third-party escrow agent. Changes in bonded debt outstanding during fiscal year 2015 are summarized on the next page as follows:

| | Date Issued | Maturity Date | Interest Rate (%) | <u> </u> | Original ssue Amount | <u>t</u> . | Outstanding July 1, 2014 | | Additions | | Retired | | Outstanding June 30, 2015 |

| Total Business-Type Activities | | | | | | \$ | 115,998,677 | \$ | 9,850,850 | \$ | 4,889,491 | \$ | 120,960,036 |

All long-term liabilities listed under Governmental activities are generally liquidated by the General Fund.

The Water Pollution Control Fund borrowed \$6,595,532 in FY2009 from the state revolving loan fund. Of that, \$995,579 of American Reinvestment and Recovery Act (ARRA) funds will be applied against principal over the life of the 20-year bond. The Water Fund borrowed \$3,300,000 in FY2009 from the state revolving loan fund. \$765,452 of ARRA funds will be applied against principal over the 20-year life of the bond. The annual ARRA offset will be taken into revenue each year the bonds are outstanding.

The City of Newport Water and Water Pollution Control Funds have the following outstanding State Revolving Fund (SRF) revenue bonds and non-SRF revenue bonds all issued through the Rhode Island Clean Water Finance Agency (RICWFA). The bond proceeds are held by RICWFA or their escrow agent. Bonds are issued for a specific purpose and for a total approved amount. The revenue bonds are drawdown bonds whereby the City sends vendor invoices to RICWFA for payment and the City's outstanding bond amounts equal the total of the drawdowns less principal payments per a set amortization schedule. The following schedule shows the amounts of the bonds and the purpose for which it was issued. Each revenue bond issue requires a debt service reserve to be held by the City's escrow agent.

| Description | Fund | Year Issued | Total Bond | Amount Drawndown To Date | Debt Service Reserve | ARRA Funding |

The City has a \$2,337,000 General Obligation Qualified Zone Academy Bond, Series 2001 dated December 14, 2001, due December 14, 2015, which was used to help finance the construction of Thompson Middle School. The bond may not be prepaid prior to the maturity date. The City is required to make annual sinking fund installments of \$133,110 with the trustee, which will be invested with the bank (purchaser of the bond). The total amount to be deposited into the sinking fund is \$1,863,536. The City is responsible for ensuring that the entire \$2,337,000 is repaid. Therefore, if the sinking fund payments plus investment earnings are insufficient to cover the \$2,337,000, the City will be responsible for the balance due. Current fair market value of the sinking fund is \$2,202,084 which amount is reported in the debt service fund, a nonmajor governmental fund.

Bonded indebtedness on June 30, 2015 matures over fiscal years through 2035 as follows:

Debt authorized by the City Council and voters, where applicable, and not yet issued at June 30, 2015 is as follows:

| Road Improvement Bonds Capital Projects Fund | \$ 2,505,000 |
|--|-----------------|
| Municipal Facilities | 4,760,000 |
| Water System Improvements | 900,000 |
| Sewer System Improvements | 56,373,000 |

8. NOTES PAYABLE

Business-Type Activities

In 1984, the Redevelopment Agency of Newport, a component unit, purchased a vacant building in an area of the City designed for redevelopment. As part of the financing for this purchase, the State of Rhode Island loaned the Redevelopment Agency \$200,000. The underlying note bears no stated interest rate or maturity and is secured with a mortgage on the building. The Redevelopment Agency turned over the building to the City of Newport Maritime Fund in April, 2010. As of June 30, 2015, \$200,000 was payable. The note is required to be paid only upon the sale of the building.

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2015 was as follows:

Statutory Debt Limitations

Rhode Island General Laws cap the amount of each municipality's general obligation bonds that may be outstanding to 3% of its assessed property values. Exceptions apply to bonds financed from non-tax revenues, bonds issued under special acts of the legislature, and special exemptions are granted for other purposes as well. The net assessed value of Newport properties at December 31, 2014 was \$5,985,006,478, limiting the amount of non-excepted general obligation bonds outstanding to \$179,550,194. Bonds of \$44,678,536 outstanding at June 30, 2015 are general obligations and subject to statutory limitation.

9. OPERATING LEASES

The City leases certain office equipment under multi-year agreements that are subject to annual appropriation. Additionally, the Water Fund assesses the General Fund an annual lease charge of \$585,416 for providing a public fire protection system owned by the Water Fund pursuant to tariffs mandated by the Rhode Island Public Utilities Commission. For the year ended June 30, 2015, the General Fund incurred expenditures of \$585,416 associated with these agreements. The minimum annual lease obligations of the General Fund related to these agreements are \$585,416 until such time as the Rhode Island Public Utilities Commission approves a rate change.

10. CAPITAL LEASES

The City entered into an agreement to lease purchase a new HVAC system for the School Department in the principal amount of \$1,062,226 at an interest rate of 3.07%. Payments of principal and interest are being amortized as follows:

| Year Ending June 30, | Principal | | | Interest | | | |
|--------------------------------------|-----------|---|----|---|--|--|--|
| 2016 2017 2018 2019 2020 | \$ | 104,235 107,435 110,733 114,133 117,637 | \$ | 20,735 17,535 14,237 10,838 7,334 | | | |
| 2021 | _ | 121,249 | | 3,722 | | | |
| | \$ | 675,422 | \$ | 74,401 | | | |

Equipment under capital leases in capital assets at June 30, 2015 included the following:

| Machinery and equipment Less: Accumulated Depreciation | \$ 1,239,457 (382,166) |
|---|------------------------------|
| Net | \$ 857,291 |

11. FUND BALANCES

The following table details the purposes for which fund balances may be nonspendable, restricted, committed or assigned.

| | General Fund | Community Development Block Grant | Permanent Fund | Capital Projects Fund | Other Governmental Funds | Total |
|--|------------------------|---|-------------------|---------------------------------|-----------------------------------|--|
| Nonspendable: Endowments | \$ | \$\$ | 2,601,651 | \$ | \$ | \$ 2,601,651 |
| Restricted: Trust purposes Education For recreation by donors Planning, urban and economic | 105,183 | | 8,070,909 | | 418,463 | 8,070,909 418,463 105,183 |
| development Public safety Community and social services Debt service | | 727,834 | 0.070.000 | | 2,046,315 637,858 2,202,084 | 2,046,315 637,858 727,834 2,202,084 |
| Total Restricted | 105,183 | 727,834 | 8,070,909 | . <u> </u> | 5,304,720 | 14,208,646 |
| Committed: General government Capital improvements Total Committed | 1,291,706 | | | <u>11,480,237</u> 11,480,237 | <u> </u> | 1,291,706 11,480,237 12,771,943 |
| Assigned: Public improvements Total Assigned | 2,844,064 2,844,064 | <u> </u> | - | | | 2,844,064 2,844,064 |
| Unassigned | 13,369,154 | | | | (64,680) | 13,304,474 |
| Totals | \$ 17,610,107 | \$ 727,834 | 10,672,560 | \$ 11,480,237 | \$ 5,240,040 | \$ 45,730,778 |

The restricted amounts consist of state and federal grants as well as the expendable portion of the trust funds. Funds cannot be spent for any purpose other than that specified by the grantor, trust donor or law.

The committed amounts in the general fund are encumbrances wherein the amounts or service has been ordered but not yet delivered.

The assigned amount in the general fund is the balance of proceeds from the sale of schools. The Council has assigned those amounts by resolution.

12. RISK MANAGEMENT

Through its operations, the City is exposed to various risks of loss related to torts, general liability, errors and omissions, and property losses due to theft, damage, or destruction, each of which is insured through a public entity risk pool; and to employee injuries and claims for unemployment, for which the City retains the risk of loss. Terms of collective bargaining agreements also require the City to assume risks of employee financial losses resulting from health and dental catastrophes and death, each of which the City has transferred to commercial insurers.

The City is a member of the Rhode Island Inter-local Risk Management Trust (the Trust), a non-profit public entity risk pool which provides insurance coverage to participants in exchange for an annual premium and a pro-rata share of certain administrative expenses. Coverage is provided in accordance with each member's policy, subject to deductibles, through a pooling of risks among participants, supplemented by commercial reinsurance for excess losses. Management believes the Trust's

reserves to be adequate to meet all reported claims, as well as an estimate of potential claims for losses incurred but not reported. Accordingly, no accrual has been made for potential liabilities arising from risks once they have been transferred to the Trust.

The City maintains \$2,000,000 of liability insurance per incident and insures property for replacement cost. Settled claims have not exceeded coverage through the Trust in any of the past three years.

The City self-insures certain properties for all or a portion of flood insurance. The following list details the replacement cost of the building and/or contents:

Fully Self-insured

| Property | _ | Building Value | С | ontents/Othe Value | e r | Total Value |
|-------------------------------------|----|-------------------|-------|-----------------------|----------------|-------------|
| America's Cup Parking Garage | \$ | 4,015,328 | \$ | | \$ | 4,015,328 |
| Cardine's Field Restrooms | | 224,609 | | | | 224,609 |
| Cardine's Field Storage Building | | 18,566 | | | | 18,566 |
| Easton's Beach Storage Building | | 95,836 | | | | 95,836 |
| Eisenhower Park Structures | | | | 53,800 | | 53,800 |
| King's Park Restrooms | | 127,602 | | | | 127,602 |
| Long Wharf Harbormaster Shed | | 39,902 | | 4,051 | | 43,953 |
| Easton's Beach Carousel/Concessions | | 3,408,394 | | 450,000 | | 3,858,394 |
| Gateway Center | | 3,343,092 | | | | 3,343,092 |
| Convention Center Canopies | _ | 1,113,819 | | | | 1,113,819 |
| | \$ | 12,387,148 | \$ | 507,851 | \$ | 12,894,999 |

Remaining properties are fully or partially insured through the National Flood Insurance Program or through the Trust. Deductibles for the National Flood Insurance Program are either \$2,000 or \$50,000. The exposure of partially insured properties is \$12,894,999 less \$10,000,000 per member annual aggregate. The City has not established reserves and believes that the risk of flood damage to all of the self-insured or partially insured properties at any one time is minimal. Note that the City has obtained flood insurance for all properties through the Rhode Island Interlocal Trust effective July 1, 2015.

13. PENSION PLANS

The City implemented Statement No. 68 of the Governmental Accounting Standards Board entitled Accounting and Financial Reporting for Pensions. This standard applies to all pension plans.

All eligible employees of the City are covered by one of four pension plans, the Employees' Retirement System of the State of Rhode Island (Teachers' Plan), the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan), the Firemen's Pension Plan and the Policemen's Pension Plan. The Teachers' Plan covers all School Department personnel certified by the Rhode Island Department of Education who are or have been engaged in teaching as a principal occupation. The Municipal Plan covers all employees not covered under the Teachers' Plan. However, fire employees and police officers have elected to participate in a single-employer pension plan administered by the City. The Firemen's Pension Plan and Policemen's Pension Plan cover all employees covered under a collective bargaining agreement either with the International Association of Firefighters, Local 1080 or

the Fraternal Order of Police, Lodge Number 8. Total covered payroll under all plans during 2015 was \$39,804,060. Total City payroll was \$48,873,039 for the same period.

The Employees' Retirement System of the State of Rhode Island (the System) acts as a common investment and administrative agent for pension benefits to be provided through various defined benefit and defined contribution retirement plans. The System is administered by the State of Rhode Island Retirement Board which was authorized, created and established as an independent retirement board to hold and administer, in trust, the funds of the retirement system. Each plan's assets are accounted for separately and may be used only for the payment of benefits to the members of that plan, in accordance with the terms of that plan.

A. Teachers' Plan

Plan Description

The Employees' Retirement System (ERS) Plan (the Plan) was established and placed under the management of the Retirement Board for the purpose of providing retirement allowances for employees of the State of Rhode Island under the provisions of chapter 8 - 10, inclusive, of Title 36, and public school teachers under the provisions of chapters 15 - 17, inclusive, of Title 16 of the Rhode Island General Laws.

The Plan covers most State employees other than certain personnel at the State colleges and university. The Plan also covers teachers, including superintendents, principals, school nurses, and certain other school officials in the public schools in the cities and towns. Membership in the Plan is mandatory for all covered state employees and teachers.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

City of Newport covered payroll under the plan during 2015 was \$16,643,677, including \$1,200,130 of federally reimbursed payroll.

Benefits Provided

The Plan provides benefits based on various eligibility dates, final average compensation (FAC), and years of service credit. For members eligible to retire as of September 30, 2009, their FAC will be based on the highest three consecutive annual salaries. FAC for all other members will be based on the highest five consecutive years of salary. Members vest in the benefits after five years of service. Retirement eligibility dates vary based on years of service as of June 30, 2012. Eligibility, benefit calculations for current retirees, and retirement dates are detailed in the Employees' Retirement System of Rhode Island Actuarial Valuation as of June 30, 2014 which can be located on the ERSRI website under reports and publications. Active employees with more than 20 years of service at July 1, 2012 will receive a retirement benefit equal to 2% of the monthly FAC. All other active employees (i.e. less than 20 years of active service at July 1, 2012) will receive a benefit of 2% for years of service up until June 30, 2012. The benefit drops to 1% for service after June 30, 2012. A defined contribution plan was added for all employees with less than 20 years of service at July 1, 2012.

Death and disability benefits are provided under the Plan. After retirement, death benefits are based on the form of annuity elected. In addition, a lump-sum death benefit is payable upon the death of any retired member, regardless of option elected. This lump sum is equal to a percentage of the lump-sum death benefit that was available to the member at the time of retirement. Percentages depend upon the number of years retired when death occurred. A member is eligible for disability retirement provided

they have at least five years of service or if the disability is work-related. Ordinary disability is the benefit payable under the retirement formula. Accidental disability benefits are 66 2/3 of salary for members who are permanently and totally disabled from engaging in any occupation as determined by the Retirement Board.

Contributions

Rhode Island general laws set the contribution rates of participating employees at 10.75% of salary (3.75% to the defined benefit trust and 7.0% to the defined contribution plan) effective July 1, 2012, except that those employees with more than 10 years of service but less than 20 years of service as of July 1, 2012 are eligible for a higher rate of contribution into the defined contribution plan.

Actuarially determined contributions by both employers and the State on behalf of those employees are determined by actuaries and assessed as a percentage of participants' payroll. The actuarially determined contributions include (a) normal costs; (b) payments to amortize the unfunded frozen actuarial accrued liability as of July 1, 1985 over 30 years; (c) interest on the unfunded frozen actuarial liability; and a percentage of payroll contribution into the defined contribution plan. Normal cost is determined using the individual entry age cost method with frozen initial liability.

As prescribed by Rhode Island general law, the State pays the entire portion of the actuarially determined contribution attributable to the costs of contributions deferred by the State in prior years, plus 40% of contributions assessed to employers on payroll not reimbursable through federal programs. For fiscal year 2015, contributions were 13.41% of participants' salary (also 22.6% for federally reimbursed salary). This resulted in a contribution rate paid by the State on behalf of City teachers of 8.42%. The City's contribution rate was 13.41%.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Teachers' Pensions

As of the Plan's measurement date of June 30, 2014, the City reports a net pension liability of \$25,099,478 as its proportional share of the net pension liability. The State's proportionate share of the net pension liability is \$17,211,868. The net pension liability was measured as of June 30, 2014. The City's proportion of the net pension liability is based on the City's fiscal year 2014 contributions as a percentage of total contributions to the Plan. The City's percentage is 1.031(rounded).

The allocation reflects a special funding situation wherein the State of Rhode Island, by statute, has assumed responsibility to fund 40% of the required employer contribution for teachers. The actual proportionate share of employer contributions to be borne by the State varies slightly from 40% due to local education agency employers not participating in a component of the actuarially determined contribution that related to interest on certain contributions withdrawn, but subsequently restored, to the Plan. The allocation also includes an adjustment to determine equivalent contributions from local educational agencies if all had been shared on a consistent basis. The employer contribution for certain teachers funded by federal programs is borne 100% by the local education agency using federal funds and consequently, there is no State share. The adjustment converts the actual contribution amounts by local educational agency employers to an equivalent basis for the purpose of determining the proportionate share of the net pension liability, pension expense and deferred inflows and outflows of resources.

For the year ended June 30, 2015, the City recognized gross pension expense for the teachers' Plan of \$2,941,318 and revenue of \$1,196,501 for support provided by the State. At June 30, 2015, the City reported deferred outflows and inflows of resources related to pensions from the following sources:

| | _ | Deferred Outflows of Resources | | Deferred Inflows of Resources | |
|---|----|-----------------------------------|----|----------------------------------|--|
| Net difference between projected and actual earnings on pension plan investments Changes of assumptions City contributions subsequent to the | \$ | | \$ | 2,161,334 889,071 | |
| measurement date | - | 2,309,003 | | | |
| Totals | \$ | 2,309,003 | \$ | 3,050,405 | |

\$2,309,003 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. The proportionate share reported as deferred inflows of resources related to pensions will be recognized over 8.063 years in pension expense as follows:

Year Ending June 30

| 2016 | \$ (666,211) |
|------------|-----------------|
| 2017 | (666,211) |
| 2018 | (666,211) |
| 2019 | (666,211) |
| 2020 | (125,877) |
| Thereafter | (259,684) |
| | |

Actuarial Assumptions

The total pension liability performed as of June 30, 2013 and rolled forward to the June 30, 2014 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

The actuarial assumptions used in the June 30, 2013 valuations and the calculation of the total pension liability at June 30, 2014 (measurement date) were consistent with the results of an actuarial experience study performed as of June 30, 2013.

Actuarial Cost Method - Entry Age Normal - the Individual Entry Age Actuarial Cost methodology

Amortization Method - Level Percent of Payroll - Closed

Equivalent Single Remaining Amortization Period - 21 years at June 30, 2014

Investment Rate of Return - 7.50%

Projected Salary Increases - 3.50% to 13.5%

Inflation - 2.75%

Mortality - teachers: male and female teachers: 97% and 92%, respectively of rates in a Gabriel Roeder Smith table based on male and female teacher experience, projected with Scale AA from 2000.

Cost of Living Adjustments - COLA is equal to the average five-year fund asset performance (percent) greater than 5.5% up to a maximum of 4% - the COLA to be applied to the first \$25,000 of benefits, indexed over time. COLA is delayed until the latter of Social Security Age or 3 years after retirement.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium term (10 year) capital market return assumptions developed by eight investment consultant firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission's investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

| Asset Class | Target allocation | Medium-term expected real rate of return |
|-----------------------|-------------------|--|
| Global Equity | 38% | 6.05% |
| Private Equity | 7% | 9.05% |
| Equity Hedge funds | 8% | 4.75% |
| Absolute return hedge | 7% | 2.95% |
| Real Return | 14% | 3.85% |
| Real Estate | 8% | 4.45% |
| Core Fixed | 15% | 0.25% |
| Cash | 3% | -0.50% |
| | 100% | |

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year horizon return expectations.

Discount Rate

The discount rate used to measure the total pension liability of the ERS plan was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate:

| | 1% | Current | 1% |
|---|---------------|------------------|------------|
| | Decrease | Discount Rate | Increase |
| | 6.50% | 7.50% | 8.50% |
| City's proportionate share of the net pension liability | \$ 31,433,995 | \$ 25,099,478 \$ | 18,634,983 |

B. Teachers' Survivors Benefit Plan

General Information about the Pension Plan

Plan Description

Certain employees of the City of Newport School District participate in a cost-sharing multiple-employer defined benefit pension plan - the Teachers' Survivors Benefit plan - (TSB Plan) administered by the Employees' Retirement System of the State of Rhode Island (System). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides a survivor benefit to public school teachers in lieu of Social Security since not all school districts participate in Social Security.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Eligibility and Plan Benefits

The plan provides a survivor benefit to public school teachers in lieu of Social Security. Specific eligibility criteria and the amount of the benefit is subject to the provisions of Chapter 16-16 of the Rhode Island General Laws which are subject to amendment by the General Assembly. Spouse, parents, family and children's benefits are payable following the death of a member. A spouse shall be entitled to benefits upon attaining the age of sixty (60) years. Children's benefits are payable to the child, including a stepchild or adopted child of a deceased member if the child is unmarried and under the age of eighteen (18) years or twenty-three (23) years and a full time student, and was dependent upon the member at the time of the member's death. Family benefits are provided if at the time of the member's death the surviving spouse has in his or her care a child of the deceased member entitled to child benefits. Parents benefits are payable to the parent or parents of a deceased member if the member did not leave a widow, widower, or child who could ever qualify for monthly benefits on the member's wages and the parent has reached the age of 60 years, has not remarried, and received support from the member.

In January, a yearly cost-of-living adjustment for spouse's benefits is paid and based on the annual social security adjustment. Survivors are eligible for benefits if the member has made contributions for at least six months prior to death or retirement. The TSB plan provides benefits based on the highest salary at the time of retirement of the teacher. Benefits are payable in accordance with the following table:

| Highest | Basic Monthly | | |
|---|------------------|---------------------------------------|--|
| Annual Salary | Spouse's Benefit | | |
| \$17,000 or less \$17,001 to \$25,000 \$25,001 to \$33,000 \$33,001 to \$40,000 \$40,001 and over | \$ | 750 875 1,000 1,125 1,250 | |

Benefits payable to children and families are equal to the spousal benefit multiplied by the percentage below:

| Parent and 1 | Parent and 2 or more Children | 1 Child | 2 Children | 3 or More | Dependent |
|--------------|-------------------------------|---------|------------|----------------|-----------|
| Child | | Alone | Alone | Children Alone | Parent |
| 150% | 175% | 75% | 150% | 175% | 100% |

Contributions

The contribution requirements of active employees and the participating school districts were established under Chapter 16-16 of the Rhode Island General Laws, which may be amended by the General Assembly. The cost of the benefits provided by the plan are two percent (2%) of the member's annual salary up to but not exceeding an annual salary of \$9,600; one-half (1/2) of the cost is contributed by the member by deductions from his or her salary, and the other half (1/2) is contributed and paid by the respective school district by which the member is employed. These contributions are in addition to the contributions required for regular pension benefits.

The City of Newport School District contributed \$21,216, \$20,185 and \$21,193 for the fiscal years ended June 30, 2015, 2014 and 2013, respectively, equal to 100% of the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the TSB Plan

At June 30, 2015 the City of Newport School District reported an asset of \$4,119,452 for its proportionate share of the net pension asset related to its participation in TSB. The net pension asset was measured as of June 30, 2014, the measurement date, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of June 30, 2013 rolled forward to June 30, 2014. The City's proportion of the net pension asset was based on its share of contributions to the TSB for fiscal year 2014 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2014 the City's proportion was 3.314 (rounded).

For the year ended June 30, 2015 the City recognized pension expense of \$(317,541) - an increase in the net pension asset. At June 30, 2015 the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | - | Deferred Outflows of Resources | | Deferred Inflows of Resources |
|---|----|-----------------------------------|----|----------------------------------|
| Net difference between projected and actual earnings on pension plan investments City contributions subsequent to the | \$ | | \$ | 539,119 |
| measurement date | - | 21,216 | • | |
| Totals | \$ | 21,216 | \$ | 539,119 |

\$21,216 reported as deferred outflows of resources related to pensions resulting from the City's contributions in fiscal year 2015 subsequent to the measurement date will be recognized as an addition to the net pension asset for the year ended June 30, 2016. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30

| 2015 | \$ | (134,780) |
|------|----|-----------|
| 2016 | Ψ | (134,780) |
| 2017 | | (134,780) |
| 2018 | | (134,779) |
| | | |

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.75% |
|---------------------------|-----------------|
| Salary increases | 3.50% to 13.50% |
| Investment rate of return | 7.50% |

Mortality rates for male and female teachers were based on 97% (males) and 92% (females) of rates in a GRS table based on male and female teacher experience, projected with scale AA from 2000.

Cost of living adjustment eligible survivors receive a yearly cost of living adjustment based on the annual social security adjustment - for valuation purposes, a 2.75% cost of living adjustment is assumed.

The actuarial assumptions used in the June 30, 2013 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium-term (10 year) capital market return assumptions developed by eight investment consulting firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission's investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

| Asset Class | Target allocation | Medium-term expected real rate of return |
|--------------------|----------------------|--|
| Global Equity | 38% | 6.05% |
| Private Equity | 7% | 9.05% |
| Equity Hedge funds | 8% | 4.75% |
| Real Return | 14% | 3.85% |
| Real Estate | 8% | 4.45% |
| Core Fixed | 15% | 0.25% |
| Cash | 3% | -0.50% |
| | 100% | |

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year-horizon return expectations.

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) calculated using the discount rate of 7.5 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

| | 1% Decrease 6.50% | - | Current Discount Rate 7.50% | 1% Increase 8.50% |
|---|-------------------------|----|-----------------------------------|-------------------------|
| City's proportionate share of the net pension liability (asset) | \$ (3,530,311) | \$ | (4,119,452) | \$ (4,708,508) |

C. Municipal Employees' Plan (MERS)

General Information about the Plan

Plan Description

The Municipal Employees' Retirement System (MERS) - an agent multiple-employer defined benefit pension plan - provides certain retirement, disability and death benefits to plan members and beneficiaries. MERS was established under Rhode Island General Law and placed under the management of the Employee's Retirement System of Rhode Island (ERSRI) Board to provide retirement allowances to employees of municipalities, housing authorities, water and sewer districts, and municipal police and fire persons that have elected to participate. Benefit provisions are subject to amendment by the General Assembly.

MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the ERSRI website at <u>www.ersri.org</u>.

Benefits Provided

For general employees prior to June 30, 2012 the plan provided retirement benefits equal to 2% of a member's final average salary multiplied by the number of years of total service up to a maximum of 75%. Such benefits are available to members at least age 58 with 10 years of service or after 30 years of service at any age. Benefits accrued at June 30, 2012 are protected under the Rhode Island Retirement Security Act until it is exceeded by the member's full years of service credit, including service after June 30, 2012, multiplied by the average of five consecutive years of compensation. Effective July 1, 2012 the retirement age will mirror the Social Security Normal Retirement Age not to exceed age 67. Members with 20 years or more of service as of July 1, 2012 will continue to receive a benefit accrual of 2.0% per year based on the five-year average compensation. Members with less than 20 years of service at July 12, 2012 will receive a benefit accrual of 1.0% per year based on the five-year average compensation.

Joint and survivor options are available as well as the Service Retirement Allowance (SRA) Plus option that provides for the payment of a larger benefit before the attainment of age sixty-two (62) and a reduced amount thereafter. The reduced amount is equal to the benefit before age sixty-two (62), including cost-of-living increases, minus the member's estimated social security benefit payable at age sixty-two (62).

An optional cost-of-living provision is provided for general employees. The Cost of Living Adjustment (COLA) has been suspended for any unit whose funding level is less than 80%. The COLA provision can be reviewed in a five-year interval. When the funding level of a plan exceeds 80%, funded eligible retirees may receive a COLA annually effective on their date of retirement plus one month.

The COLA will be calculated as the five (5) year smoothed investment rate of return less 5.50%, with a 0.00% floor and a 4.00% cap. For general employee units, COLA will be delayed until the later of the Social Security Normal Retirement Age or three years after retirement. The COLA will be applied to the first \$25,000 of benefits indexed annually.

The plan also provides nonservice-connected disability benefits after 5 years of service; service-connected disability pensions with no minimum service requirement.

At the June 30, 2013 valuation date, the following employees were covered by the benefit terms:

| Retirees and Beneficiaries | 242 |
|------------------------------|-----|
| Inactive, No retired Members | 123 |
| Active Members | 250 |
| Total | 615 |

Contribution

The amount of employee and employer contributions have been established under Rhode Island General Law Chapter 45-21. General employees with less than 20 years of service at July 1, 2012 are required to contribute 2% of their salaries towards the plan. Employees with more than 20 years of service as of July 1, 2012 are required to contribute 9.25% of their salaries as of July 1, 2015. The City contributes at a rate of covered employee payroll as determined by an independent actuary on an annual basis. The General Assembly can amend the amount of these contribution requirements. The City contributed \$2,506,948 in the year ended June 30, 2015 which was 21.5% of annual covered payroll.

Net Pension Liability

The total pension liability used to calculate the net pension liability was determined by actuarial valuations performed as of June 30, 2013 and rolled forward to June 30, 2014, using the following actuarial assumptions, applied to all periods included in the measurement.

Summary of Actuarial Assumptions Used in the Valuations to Determine the Net Pension Liability at the June 30, 2014 Measurement Date (June 30, 2013 Valuation Rolled Forward to June 30, 2014)

Actuarial Cost Method Amortization Equivalent Single Remaining Amortization Period Investment Rate of Return Projected Salary Increases Inflation Mortality Entry Age Normal Level Percent of Payroll - Closed 21 years at June 30, 2014 7.50% 3.50% to 7.50% 2.75%

Male Employees, MERS General 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000.

Female Employees, MERS General 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000.

Cost of Living Adjustment is equal to the average five-year fund asset performance (percent) greater than 5.5% up to a maximum of 4% - the COLA is to be applied to the first \$25,000 of benefits, indexed over time. COLA is delayed until the latter of Social Security eligibility age or 3 years after retirement. A 2% COLA is assumed after January 1, 2014.

The actuarial assumptions used in the June 30, 2013 valuation rolled forward to June 30, 2014 and the calculation of the total pension liability at June 30, 2014 were consistent with the results of an actuarial experience study performed as of June 30, 2013.

Investments

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on forward-looking medium-term (10 year) capital market return assumptions developed by eight investment consulting firms. The June 30, 2014 expected arithmetic returns over the medium term by asset class as developed by the State Investment Commission's investment consultant, which are generally consistent with the averages utilized by the actuary, are summarized in the following table:

| Asset Class | Target Allocation | Medium-term Expected Real Rate of Return |
|-----------------------|----------------------|--|
| | | 0.05% |
| Global Equity | 38% | 6.05% |
| Private Equity | 7% | 9.05% |
| Equity Hedge funds | 8% | 4.75% |
| Absolute return hedge | 7% | 2.95% |
| Real Return | 14% | 3.85% |
| Real Estate | 8% | 4.45% |
| Core Fixed | 15% | 0.25% |
| Cash | 3% | -0.50% |
| | 100% | |

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall medium-term expected rate of return best-estimate on an arithmetic basis. To arrive at the long-term expected return estimate, the actuary adjusts the medium-term number to reflect the longer 30-year time frame required for actuarial calculations. This process produces the actuarial expected return, which is based on a 30-year horizon, and can differ from the medium-term, 10-year-horizon return expectations.

Discount Rate

The discount rate used to measure the total pension liability of the plans was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in Net Pension Liability

| MERS Plan | _ | Total Pension Liability (a) | Plan Fiduciary Net Position (b) | Net Pension Liability (c) |
|--|-----|--|--|--|
| Beginning Balances | \$_ | 68,681,188 \$ | 5 <u>43,033,711</u> \$ | 25,647,477 |
| Changes for the year: Service cost Interest Differences between expected and actual experience Other Contributions - employer Contributions - employee Net investment income Benefit payments, including refunds of member contributions Plan administrative expenses Net changes | - | 1,027,962 5,004,233 180,610 (4,944,136) <u>1,268,669</u> | 119,179 2,240,214 226,656 6,243,957 (4,944,136) (39,099) 3,846,771 | 1,027,962 5,004,233 180,610 (119,179) (2,240,214) (226,656) (6,243,957) - <u>39,099</u> (2,578,102) |
| Ending Balances | \$_ | 69,949,857 \$ | <u> 46,880,482 </u> \$ | 23,069,375 |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued ERSRI financial report.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability (asset) of the employers calculated using the discount rate of 7.5 percent, as well as what the employers' net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

| | 1% Decrease 6.50% | Current Discount Rate 7.50% | 1% Increase 8.50% |
|---|-------------------------|-----------------------------------|-------------------------|
| City's proportionate share of the net pension liability | \$ 30,577,315 | \$ 23,069,375 | \$ 15,561,435 |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the employer recognized pension expense of \$2,010,930. The employer reported deferred outflows and inflows of resources related to pensions from the following sources:

| | ferred Outflows of Resources | Deferred Inflows of Resources |
|---|-------------------------------------|----------------------------------|
| Net difference between projected and actual earnings on pension plan investments Changes of assumptions | \$ \$ 136,240 | 2,485,058 |
| City contributions subsequent to the measurement date | 2,506,948 | |
| Totals | \$ 2,643,188_\$ | 2,485,058 |

\$2,506,948 reported as deferred outflows of resources related to pensions resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. The proportionate share reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30

| 2016 | \$ (576,895) |
|------------|-----------------|
| 2017 | (576,895) |
| 2018 | (576,895) |
| 2019 | (618,133) |
| 2020 | - |
| Thereafter | - |

D. Fire Pension Plan And Police Pension Plan

The City has separately established and administers two defined benefit pension plans; the Firemen's Pension Plan (Fire Plan) and the Policemen's Pension Plan (Police Plan). Each plan is reported as a pension trust fund in the City's fiduciary fund net assets. A separate report on these pension plans is not available; they are audited as part of the City's audit.

Valuation of Investments

Investments are valued at fair value. Securities traded on national exchanges are valued at the last reported sales price. There are no investments of 5% or greater in any one organization. The City does not use an actuarial smoothing process in determining value of assets.

Plan Administration

The City's police and fire pension plans are administered internally except that retiree benefits are paid by a third party administrator.

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets.

Plan Descriptions and Contribution Information

As of June 30, 2015, membership in each plan was as follows:

| | Fire Plan | Police Plan |
|---|----------------|----------------|
| Total active employees Inactive employees with vested rights Pensioners and beneficiaries | 94 1 121 | 76 1 124 |
| Total plan members | 216 | 201 |

Benefits Provided

Each plan is a single-employer defined benefit pension plan which provides retirement, disability and death benefits to its participants. For fiscal year 2015, covered payroll under the plans was \$6,205,276 and \$5,489,942 for the fire and police plans, respectively. Rights to pension benefits become fully vested for fire and police participants after 10 years of service. Police are eligible to retire after 20 years of service, and firefighters hired prior to July 1, 2011 are eligible to retire after 25 years of service. Firefighters hired on or after July 1, 2011 shall not be entitled to collect any pension or retirement benefits until they have attained the age of 58 or have completed 30 years of service.

Police benefits are equal to 50% of salary with an additional 2.5% for each year of service after 20 years and up to 24 years of service. The percentage increases to 65% of salary at 25 years of service. Police retirees who work more than 25 years are entitled to an additional 1.5%, with the total benefit not to exceed 70% of salary.

The fire pension plan entitles retirees to benefits equal to 65% of salary for those who retire at 25 years. The percentage increases by 1% per year until the maximum of 70% of salary is attained.

For pension purposes, annual salary includes regular and longevity pay.

Pre-retirement benefits at a minimum of 25% and 50% of salary are provided to disabled fire and police participants, respectively. However, fire employees are eligible for an additional 2.5% of salary for each year of service in excess of 10 years until a maximum benefit of 62.5% of salary is attained. Surviving spouses under both plans are also eligible for pre-retirement death benefits of 67.5% of salary, subject to a pro-rata reduction for participants having fewer than 20 years of service.

Cost of living adjustments (COLA's) are provided to both police and fire retirees. All police retirees and fire retirees that have retired prior to September 30, 2011 are entitled to the same cost of living adjustment as that negotiated by the bargaining unit for active participants. Police retirees on or after July 1, 2014 will not be eligible to receive a COLA until they would have attained 25 years of service. Fire retirees that have retired on or after September 30, 2011 receive a cost of living adjustment equal to the Northeast Urban Wage Earner's Consumer Price Index not to exceed 3% in any given year but in no event less than .5%.

The Police Pension Plan is closed to new hires. Police officers hired after January 1, 2015 will be put into a State of Rhode Island Municipal Employees' Retirement Plan. There were no participants as of June 30, 2015.

Contributions

Under terms of their collective bargaining agreements, firefighters are required to contribute 9% of salary and policemen are required to contribute 8% of salary to their respective pension plans. The City establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance a portion of the unfunded accrued liability. The unfunded accrued liability is being amortized over a closed 30 year period of which there are 16 years remaining. Rhode Island general laws, city ordinances and collective bargaining agreements establish minimum employer funding.

STATEMENT OF CHANGES IN FIDUCIARY NET POSITION FOR THE YEAR ENDED JUNE 30, 2015

Investment Policy

The City Council and Charter grant authority to a five-member Trust and Investment Commission (Commission) to manage fiduciary fund assets. The members are appointed by the City Council. The fiduciary funds include the police pension plan assets, the fire pension plan assets, the OPEB Trust assets, trust assets and scholarship assets. Separate investment policies exist as these assets are invested for long-term growth and/or to meet specific funding targets. The policies identify the asset allocation plans and objectives developed by the Commission. The absolute objectives are to achieve growth in the principal value of assets while maintaining a level of stability and liquidity sufficient to ensure the timely payment of obligations, and to achieve the target rate of return as defined by the actuarial rate of return, currently 7.5% for the pension plans and the OPEB Trust per year net of investment expenses, over a full market cycle defined as 5 to 7 years. The policies are used to inform investment managers, consultants and custodians of the Commission's goals, objectives, and restrictions. The policies are also designed to identify and mitigate performance risk. Investments are not restricted to any particular type of investment. The investment managers are held to certain performance standards as compared to an appropriate national index. The current asset allocation plans set minimum, maximum and target allocation percentages of assets. The Large Cap Value and Large Cap Growth performances are benchmarked against the Russell 1000 Value and Russell 1000 Growth Indices, respectively. The Mid Cap performance is benchmarked against the S & P 400 Index. The Small Cap is compared to the Russell 2000 Growth, the International Equity to the MSCI All-World Free Ex-US Index. and the Fixed Income to the Barclays Aggregate Index. Further, the Commission instructs managers to invest the equity portion of the portfolio so as to prevent the returns from

underperforming the equity index in any three consecutive quarters. Currently, most of the funds are invested in mutual funds or collective trusts. For mutual funds, the managers are subject to the mutual fund prospectus. The assets are rebalanced quarterly as needed.

| Target Allocation | Determined Nominal Mean |
|----------------------|---|
| 20% | 10.4% |
| 15% | 13.1% |
| 15% | 11.6% |
| 15% | 7.9% |
| 25% | 5.7% |
| 10% | 9.4% |
| | Allocation 20% 15% 15% 15% 25% |

Concentrations

As of June 30, 2015, and during the year then ended, no pension assets were invested in any organization which collectively held 5% or more of the total assets of either plan.

Rate of Return

The annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 4.98% for the year ended June 30, 2015. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability of the City

The City's net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The components of the net pension liability of the City at June 30, 2015, were as follows:

| | Police Plan | Fire Plan | |
|--|-------------------------------------|----------------------------|--|
| Total pension liability Plan fiduciary net position | \$ 92,926,296 \$ (60,203,022) | 98,138,416 (47,436,350) | |
| City's Net Pension Liability | \$ 32,723,274 \$ | 50,702,066 | |
| Plan fiduciary net position as a percentage of total pension liability | 64.79% | 48.34% | |

Actuarial Assumptions

Pension assets are valued at their fair market value as established by quotations from applicable national securities exchanges. Valuations of pension liabilities and pension assets for both plans are performed annually as of June 30.

Significant actuarial assumptions used in each valuation are summarized as follows:

| | Fire | Police |
|---|--|--|
| Valuation Date | July 1, 2015 | July 1, 2015 |
| Actuarial Cost Method Amortization Method Remaining Amortization Period Asset appreciation Salary increases | Individual Entry Age Level Dollar Closed 16 Years 7.50% annually 2.75% annually first 10 years, 3.00% annually thereafter | Individual Entry Age Level Dollar Closed 16 Years 7.50% annually 2.75% annually first 10 years, 3.00% annually thereafter |
| Cost of living increase: | | liferediter |
| Members retired prior to 8/21/11 | 2.75% annually first 10 years, 3.00% annually thereafter | 2.75% annually first 10 years, 3.00% annually thereafter |
| Members retiring after 8/21/11 | Bureau of Labor CPI for Northeast Urban Wage Earners, not exceeding 3.00% or less than .05% | |
| Inflation Mortality: | 3.00% | 3.00% |
| Healthy Members (police and fire) | RP2000 Combined Healthy Mortality Table fully generational basis using Mortality Pro | |
| Disabled Members (police and fire) | 1985 Wyatt Pension Disability Table | |

Discount Rate

The discount rate used to measure the total pension liabilities is 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate - The following presents the net pension liability of the City, calculated using the discount rate of 7.50%, as well as what the City's pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.50%) or 1-percentage point higher (8.50%) than the current rate:

| | _ | 1% Decrease 6.50% | Current Discount Rate 7.50% | 1% Increase 8.50% |
|--------------------------------|----|-------------------------|-----------------------------------|-------------------------|
| Net pension liability - Police | \$ | 44,660,493 \$ | 32,723,274 \$ | 22,892,266 |
| Net pension liability - Fire | | 62,765,003 | 50,702,066 | 40,675,231 |

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2015, the City recognized pension expense of \$5,412,410 and \$4,501,237 for the Police and Fire Plans, respectively. The City reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

| | - | Deferred Outflows of Resources | - | Deferred Inflows of Resources |
|--|----|-----------------------------------|----|----------------------------------|
| Police Pension Plan: Difference between expected and actual experience Difference between expected and | \$ | 2,688,394 | \$ | |
| actual earnings on pension plan investments Fire Pension Plan: | | 902,638 | | |
| Difference between expected and actual experience Difference between expected and | | 65,081 | | |
| actual earnings on pension plan investments | - | 972,796 | - | |
| Total | \$ | 4,628,909 | \$ | |

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30 | Principal |
|---------------------|-----------------|
| | |
| 2016 | \$ 1,189,889 |
| 2017 | 1,189,889 |
| 2018 | 1,189,889 |
| 2019 | 1,048,393 |
| 2020 | 10,849 |

14. DEFINED CONTRIBUTION PENSION PLAN

Employees participating in the defined Teachers' benefit plan and MERS benefit plan, as described above, also participate in a defined contribution plan authorized by General Law Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a), and is administered by TIAA-CREF. Employees may choose among various investment options available to plan participants. Teachers contribute 7% of their annual covered salary, police employees that are in the MERS Plan contribute 3% of their annual covered salary, and all other employees in the MERS Plan contribute 5% of their annual covered salary. Employers contribute 1% of annual covered salary for municipal and non-certified school employees, and 3% for teachers and police officers in MERS who are not eligible for social security. Employee contributions are immediately vested while employer contributions and any investment earnings thereon are vested after three years of contributory service. Benefit terms and contributions required under the plan by both the employee and employer are established by the General Laws of the State of Rhode Island, which are subject to amendment by the General Assembly.

A legal settlement was agreed to by the State and various bargaining units in 2015 that changed the contribution rates for certain groups of employees as of July 1, 2015. Employees with 20 or more years of service as of July 1, 2012 will no longer participate in the defined contribution plan. Employers will continue to contribute 1% for employees in the system that had less than 10 years of service as of July 1, 2012. Employers will contribute 3.25% of annual covered salary teachers and 1.25% of annual covered salary for MERS participants that had between 10 and 15 years of service as of July 1, 2012. Employers will contribute 3.5% and 1.5% for teachers and MERS participants, respectively, for employees with between 15 years and 20 years of service as of July 1, 2012.

Amounts in the defined contribution plan are available to participants in accordance with IRS guidelines for such plans.

The City of Newport recognized pension expense of \$611,869 for the fiscal year ended June 30, 2015.

The System issues a publicly available financial report that includes financial statement and required supplementary information for plans administered by the System. The report may be obtained at http://www.ersri.org.

15. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

Plan Description

The City of Newport offers family or individual health insurance to retirees and life insurance to police retirees. The plan is reported as an OPEB trust fund in the City's financial statements. The plan does not issue separate financial statements. Employees vest for OPEB when they vest for pension benefits. Retired police employees receive \$25,000 in retiree life insurance. Employees can choose individual or family coverage when active, which is paid by the City. All employees contribute towards the cost of their health insurance, while active and after retirement. If an employee retires prior to age 65, the employee remains in their pre-retirement medical plan from the date of their retirement until age 65. At age 65, non-teachers enter Plan65 unless they are grandfathered in under another medical plan or are Medicare ineligible. AFSCME and NEA employees, police employees hired after July 1, 2009, and fire employees hired after July 1, 2011 are not entitled to Plan65. Medicare ineligible participants remain in the medical plan they chose as active employees. Teachers who are in the "Extended Benefit Plan" contribute 5% of their salary in order to receive Plan65 when eligible. The "Extended Benefit Plan" has been closed to new participants and teachers can opt-out of the "Extended Benefit Plan." New teachers and teachers who opt-out of the "Extended Benefits Plan" do not receive any City funded benefits once they reach age 65.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

The OPEB trust fund financial statements are prepared on the accrual basis of accounting. Contributions are recognized when they are due, pursuant to formal commitments and contractual requirements. Investment income is recognized when earned. Expenses (benefits and administration) are recognized when they are due and payable in accordance with terms of the plan.

Valuation of Investments

Investments are valued at fair value. Securities traded on national exchanges are valued at the last reported sales price. There are no investments of 5% or greater in any one organization.

Classes of Employees Covered

As of July 1, 2014 membership data was as follows:

| Active employees | 637 |
|--------------------|-------|
| Retirees | 526 |
| Total plan members | 1,163 |

Benefit Provisions and Contributions

A portion of health insurance premiums is borne by the City, dependent upon each retiree's covered group, date of retirement and credited service. For members covered under the Police Pension Plan retiring after June 30, 1987, the City pays 50% of premiums plus an additional 5% of premiums for each year of service between 11 and 20 years, until 100% is paid. Retirees prior to that date are responsible for premiums for each year between 11 and 25 years, until 100% is paid. Employees hired after July 1, 2009 are not eligible for Plan65. For members covered under the Fire Pension Plan that retired prior to September 12, 2007, the City pays 100% of health insurance premiums for members, provided that the retiree was eligible for retirement (25 years of service) at the date of separation from service. Members that retire after September 12, 2007 contribute 1% of their pension benefit towards the cost of retiree health insurance. For retirees with less than 25 years of service, the City contribution is reduced 4% per year of service less than 25. Members hired after July 1, 2011 are not eligible for Plan65. Premiums for retirees of both the Teachers' Plan and the Municipal Plan are fully paid by the City (less a retiree premium share) until age 65, provided the retiree was eligible for retirement at the time of separation from service. The City pays for a \$25,000 life insurance policy for retired police with at least 10 years of service, and for a temporary (until age 65) \$50,000 life insurance policy for retired teachers. Members of each group may elect dental and life insurance coverage at their expense.

Summary Financial Information

The Other Post Employment Benefits Trust summary financial information reported in the financial statements is as follows:

| STATEMENT OF FIDUCIARY NET POSITION OTHER POST-EMPLOYMENT BENEFITS TRUST FUN JUNE 30, 2015 | | |
|--|-----|------------|
| Assets: Cash and investments | \$ | 36,674,713 |

| Net Position at End of Year | \$_ | 36,639,834 |

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The following table shows the components of the City's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the City's net OPEB obligation.

| Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution | \$ | 6,859,180 413,452 (329,098) |
|---|-----|-----------------------------------|
| Annual OPEB cost (expense) Contributions made | _ | 6,943,534 7,332,694 |
| Increase (decrease) in net OPEB obligation Net OPEB obligation - July 1, 2014 | _ | (389,160) 5,512,693 |
| Net OPEB Obligation - June 30, 2015 | \$_ | 5,123,533 |

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2015 and the previous nine years is as follows:

| Year | Annual | Annual OPEB | OPEB |
|---------------|-------------|------------------|-------------|
| Ended | OPEB Cost | Cost Contributed | Obligation |
| June 30, 2006 | \$9,706,604 | 53.9% | \$4,466,938 |
| June 30, 2007 | 9,282,550 | 75.0% | 6,756,362 |
| June 30, 2008 | 9,997,870 | 72.3% | 9,521,806 |
| June 30, 2009 | 10,615,386 | 104.6% | 9,037,637 |
| June 30, 2010 | 9,243,181 | 121.6% | 7,429,179 |
| June 30, 2011 | 11,191,505 | 90.0% | 8,420,493 |
| June 30, 2012 | 9,519,080 | 107.7% | 7,678,173 |
| June 30, 2013 | 7,687,252 | 121.2% | 6,044,824 |
| June 30, 2014 | 7,304,803 | 107.3% | 5,512,693 |
| June 30, 2015 | 6,943,534 | 105.6% | 5,123,533 |

Funded Status And Funding Progress

The funded status of the plan as of July 1, 2015 (the date of the most recent actuarial valuation) was as follows:

| Actuarial Valuation Date | (A) Actuarial Value of Assets | Accrued Liability (AAL) Projected Unit Credit | (A-B) Under Funded AAL | (A/B) Funded AAL Ratio | (C) Covered Payroll | Under Funded AAL as a Percentage of Covered Payroll |
|--------------------------------|--|---|---------------------------------|---------------------------------|---------------------------|---|
| July 1, 2015 | \$ 36,639,832 | \$119,419,305 | \$ 82,779,473 | 30.7% | \$ 40,192,005 | 206.0% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to basic financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liabilities for benefits.

Actuarial Methods and Assumptions

The accompanying schedules of employer contributions present trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the employer and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The projected unit credit cost method was used in the July 1, 2015 actuarial valuation. Actuarial assumptions included a 7.5% investment rate of return (net of administrative expenses). Only assets that have been contributed to the OPEB Trust are considered available for liabilities for purposes of the valuation. Assets are valued at Fair Market Value. The actuarial assumptions for healthcare cost trend is growth of 5.7% for 2015, 6.1% for 2016 and 2017, and ultimately 4.2%. The actuarial assumption for inflation is 2.75%. The UAAL is being amortized over a closed thirty year period using a level percent of pay. The City is in year 22 (remaining) of the amortization schedule.

16. CONTINGENCIES

The City is involved in several lawsuits and claims. Both City officials and their legal counsel are unable to express an opinion as to the ultimate outcome of the cases, and no provision for loss has been made in the accompanying financial statements. It is the opinion of both the City officials and their legal counsel that the results of the cases would have no materially adverse effect on the City's financial position.

17. ON-BEHALF PAYMENTS

The amount recognized in the general fund intergovernmental revenues and education expenditures for contribution made by the state on-behalf of the City's teachers to the State Employees' Retirement System of Rhode Island was \$1,480,463.

18. PRIOR PERIOD ADJUSTMENT AND RESTATEMENT

A prior period adjustment of \$1,381,462 was recorded to reverse an expense that was incorrectly recorded in Fiscal Year 2014 for the Water Fund, an enterprise fund. In addition, restatements were recorded to the beginning of net position of the governmental activities and business-type activities as a result of implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* - an amendment of GASB Statement No. 27 and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date* - an amendment of GASB Statement No. 68. A summary of prior period adjustment and restatements is presented below:

Notes to Schedule:

Amounts reported as changes of assumptions were primarily the result of adjustments in mortality rates.

The police received a slight increase in 2015 in benefits meant to encourage retirement at 25 years rather than 20 in exchange for closing the plan to new entrants.

Schedules are intended to show information for 10 years - additional years will be displayed as they become available.

Supplemental, Combining and Individual Fund Statements and Schedules

General Fund

GENERAL FUND

The General Fund is composed of four separate funds.

The City's general operating fund is used to account for all activities of the City, except those required to be accounted for in another fund. The City's general operating fund accounts for the normal recurring activities of the City (i.e., general government, public safety, public works, health, social services, recreation, etc.). These activities are funded principally by property taxes, user fees and grants from other governmental units. This fund is under the control of the City Council.

The School Unrestricted Fund is under control of the elected School Committee and is used to account for all activities of the school except for those required to be accounted for in the School Restricted Fund (primarily federal and state aid).

The City's Property Acquisition Fund is used to account for proceeds from the sale of City-owned properties. These funds are assigned by Council resolution for one-time expenditures or capital improvements.

The City's Gift Fund is used to account for monies given by outside donors for specific activities provided by the City. Examples include basketball tournaments, evening and children's programs and public safety equipment. These funds are considered restricted by donors.

Nonmajor Governmental Funds

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

School Restricted Funds

This fund is used to account for educational grants that are restricted by the federal government or the State of Rhode Island for specific programs.

UDAG Fund

This fund is used to account for urban development grant activities.

State Grants Fund

This fund is used to account for grants received from the State of Rhode Island that are restricted for specific programs or purposes.

Bramley Bill Fund

This fund is used to account for activities funded by grants and private donations for specific purposes.

Sheffield Hub Grant

This fund is used to account for activities funded by the EDA grant and City match for special purposes.

Debt Service Fund

This fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Nonmajor Proprietary Funds

NONMAJOR PROPRIETARY FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the City's Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City's Council has decided that periodic determination of net income is appropriate for accountability purposes.

Maritime Fund

This fund is used to account for the activity associated with the City's harbor operations.

Parking Operations Fund

This fund is used to account for the activity associated with the City's parking operations.

Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations or other governments.

Pension Trust Funds

A fiduciary fund type used to report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans.

The City has two pension plans covering police and fire department employees. Substantially all of its other employees, except teachers, are covered by the Municipal Employees' Retirement System of the State of Rhode Island (Municipal Plan). Teachers are covered by the Employees' Retirement System of the State of Rhode Island (Teachers' Plan). The Firemen's Pension Plan and the Policemen's Pension Plan are contributory defined benefit plans.

Other Post-Employment Benefit Trust Fund

This fund is used to account for post-employment benefits provided to eligible retirees of the City.

Private Purpose Trust Funds

These funds are used to account for and report all trust arrangements under which principal and income benefit individuals, private organizations, or other governments.

Agency Funds

Agency funds are used to report resources held by the reporting government in a purely custodial capacity (assets equal liabilities).

Student Activity Funds

These funds are used to account for expenditures for educational extracurricular activities at various schools. Financing is provided by individual fundraising projects and private donations.

Newport Municipal Charitable Improvement Fund, Inc.

These funds are used to account for expenditures for municipal improvement projects. Financing is provided by fundraising and private donations.

Statistical Section

Statistical Section Information

The objectives of statistical section information are to provide financial statement users with additional historical perspective, context and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess economic condition.

Statistical section information is presented in the following categories:

- *Financial trends information* is intended to assist users in understanding and assessing how financial position has changed over time.
- *Revenue capacity information* is intended to assist users in understanding and assessing the factors affecting the ability to generate *own-source revenues* (property taxes, charges for services, etc.).
- *Debt capacity information* is intended to assist users in understanding and assessing debt burden and the ability to issue additional debt.
- Demographic and economic information is intended 1) to assist users in understanding the socioeconomic environment, and 2) to provide information that facilitates comparisons of financial statement information over time and among governments.
- Operating information is intended to provide contextual information about operations and resources to assist readers in using financial statement information to understand and assess economic condition.

The accompanying tables are presented in the above order. Refer to the Table of Contents for applicable page number locations.

(Concluded)

 (1) - General government service charges increased significantly in FY 2005 in the following categories: Management and Computer Processing Charges increased by \$277,000
 Fees and charges associated with the sale of residential and commercial property in the City increased by \$340,000
 Fees for the use of vehicles increased in the capital fund by \$285,000

(2) - Reduction in claims and judgments; reduction in the use of salary reserves as a result of open contracts

(3) - Increase in water rates of 20%

(4) - Realized and unrealized losses in permanent fund due to significant market declines

The City combined the recreation division with public services in FY2014; The City closed Easton's Beach operations (a business-type activity) into governmental activities in FY2014; The City split the planning, zoning and inspections division into two divisions in FY2014.

Notes:

Capital project fund balance depends on timing of state and federal reimbursements and type of temporary or permanent debt that may exist. These items cause the fund balance to fluctuate from year to year.

Permanent funds were reported as trust and agency funds prior to FY 2003.

The reduction of general fund balance in FY 2004 was due to the use of appropriated fund balance for capital improvements.

The reduction of general fund balance in FY 2005 was due to the use of appropriated fund balance for capital improvements and a projected school deficit.

(1) - The School Unrestricted Fund was combined with the City's General Fund, Property Acquisition Fund and Gifts Fund in FY2012

(2) - Sale of surplused school building

Notes:

(1) Reclassified school restricted revenues from donations to other revenues

(2) Increase in loans and grants made from UDAG monies for Ranger Road Infrastructure and The Opera House

(3) Reorganization that moved parks and grounds into public services

The City combined the recreation division with public services in FY2014; The City closed Easton's Beach operations (a business-type activity) into governmental activities in FY2014; The City split the planning, zoning and inspections division into two divisions in FY2014.
