DR Rhode Island Department of Revenue
Division of Municipal Finance

February 2017

Dear Municipal Official:

The Division of Municipal Finance is pleased to provide you with the results of the 27th Annual Salary Survey of selected municipal positions in Rhode Island. The survey can also be accessed on the Division's website at www.municipalfinance.ri.gov. The survey, which was prepared by Susan Moss, Fiscal Management Officer, includes salaries for municipal chief executives and 32 various department directors and other officials including some positions for the school department. The survey includes mostly full-time positions and does not include fringe benefit data. Data on base salaries (and salary ranges, where applicable), as well as longevity figures for those cities and towns which provide longevity increments is provided in this survey.

The municipalities were also asked to identify any municipal functions that have been consolidated with the school department, which is noted where applicable.

The use of comparative salary data must, of necessity, take into consideration factors other than just community population. For example, in some communities one individual may serve as purchasing agent, tax collector and finance director, while in another community, these responsibilities may be divided among several individuals. Another common example is in the area of public works. Some directors are responsible only for road maintenance, while others are responsible for sewer and water supply, in addition to road improvements. Some school districts have the position of a school business manager, while others have a director of administration who is responsible for the overall operations of the school department, including finances.

The Division of Municipal Finance wishes to thank all the local officials who responded to our survey in a very timely manner. Comments for improving this salary survey are welcomed.

Sincerely,

Susanne Greschner
Chief, Division of Municipal Finance
